

Release 3.4 Updates

The DOH MAPP team will be conducting a webinar regarding the changes that will be implemented in **MAPP HHTS Release 3.4**. The Webinar will be held on Tuesday, April 28, 2020 at 1 PM ET.

Release 3.4 Changes

- Update the Provider Management Module to include new functionality to improve how Provider's data is collected including a download file with all active contacts.
- Update the layout of how evidence is displayed on the Personal Information screen.
- Allow users to select "Member/self – Individual is 18 years of age or older" consent option for members that are 18 years of age or older, within the month of enrollment.
- Display only the most recent active piece of Evidence in the MCP Assignment and HH Assignment Files for the following Fields (eliminating multiple entries for one member):
 - Plan Provided Secondary Address – Street 1
 - Plan Provided Secondary Address – Street 2
 - Plan Provided Secondary Address – Apt/Suite
 - Plan Provided Secondary Address – City
 - Plan Provided Secondary Address – State
 - Plan Provided Secondary Address – Zip
 - Plan Provided Member Phone Number
 - Plan Provided Member Language
 - Engagement Optimization Plan
 - MCP Determined Eligibility
- Change the definition of the Home and Community Based Services (HCBS) flag on the Enrollment Download file so that a 'Y' only appears when a member has a K1 and rename it **Child HCBS Flag Based on R/E Code**.
- Care Management Agency (CMA) user role allowed to create and edit Plan of Care (POC) online.
- Add validation checks to all dates submitted to the system:
 - Start Date cannot be prior to the member DOB
 - Start Date cannot be prior to 1/1/2012
 - (IF NOT NULL) End date cannot be > 180 6 months in the future
 - Start Date cannot be >180 days in the Future
- Update Reason Codes.
- MCP Assignment File field 107 Pend Reason Comment will now show all entered comments (not just if the pend reason is *other*).
- New functionality in the in CIN Search Module that only displays active RE codes.
- Outreach billing instances will be returned with a null rate as of 7/1/2020.
