MAPP HHTS
Weekly Webinar

March 21, 2017
Agenda

• New outreach/hiatus guidelines
• HML Assessments stuck in *in progress* status
New outreach/hiatus guidelines

• As much as possible, please do not submit outreach segments into the system containing end dates

• Do not modify any outreach (active, closed, hiatus) segments to change the segment end date reason code or to adjust the end date (if possible – there are some situations where an outreach segment’s end date must be modified).

• Only delete an outreach hiatus segment if another HH requests that you delete the hiatus segment to make room for an enrollment segment
HML Assessments stuck in *in progress* status

• When a provider starts responding to an HML Assessment within the MAPP HHTS and then does not complete that assessment, the system correctly places that assessment in the *in progress* status. However, in some situations, the system does not allow the provider to open up that HML Assessment within the MAPP HHTS and complete that HML Assessment that is in the *in progress* status.

• DOH will notify the Health Home Community soon with instructions for how to deal with this situation.
