

**Prescription Drugs Covered by NYS Medicaid for Dual Eligible Beneficiaries
Effective January 1, 2014**

NYS Medicaid provides prescription drug coverage only for the drugs listed below for beneficiaries who are also enrolled in a Medicare Part D drug plan. All other prescription medications should be obtained through the Part D plan. For the most up to date coverage information for the products below, please refer to the NYS Medicaid List of Reimbursable Drugs available at <https://www.emedny.org/info/formfile>.

-------------	----------------	----------	--

NYS Medicaid also covers certain over-the-counter drugs for dual eligible beneficiaries. For a list of over-the-counter drugs that are covered, please visit <https://www.emedny.org/info/fullform.pdf> and look for "Rx Type 07" towards the end of the document.

NYS Medicaid does not provide dual eligible beneficiaries with coverage of compounded prescriptions.
