Patient Rights and Consent

• the recommendation and rationale from the consultative provider. Both the treating/requesting provider and the consultative provider are required to follow all state and federal privacy laws regarding the exchange of patient information.

· the request made by the treating/requesting provider; and

Documentation and Records

under the MMC program).

to specialty expertise by assisting the treating/requesting provider with the care of the patient without patient contact with the consultative provider. The purpose of an eConsult is to answer patient-specific treatment questions in which a consultative provider can reasonably answer from information in the request for consultation and the electronic health record, without an inperson visit. The consultative provider should respond to the eConsult request within three business days. The response should include recommendations, rationale and may include contingencies that warrant a re-consult or referral. eConsults may not be appropriate for cases that involve complex decision-making and urgent medical decision-making.

eConsults

Effective April 1, 2024, the New York State (NYS) Medicaid fee-for-service

(FFS) program will reimburse for eConsults. Medicaid Managed Care

(MMC) Plans must comply with this coverage, effective June 1, 2024.

eConsults, also known as electronic consultations or interprofessional

consultations between a treating/requesting provider and a consultative

provider [physicians (including psychiatrists), physician assistants (PAs),

nurse practitioners (NPs), midwives (MWs)], are intended to improve access

eConsults cannot be used to arrange a referral for an in-person visit. They may be used for patients with or without an existing relationship with the consultative provider. For patients with an existing relationship with the consultative provider, eConsults may be used upon presentation of a new problem where management of the patient can be reasonably carried out by the practitioner seeking the consultation. eConsults must be performed through electronic communication between the treating/requesting provider and the consultative provider. The complete record of the consult must be documented in the patient chart. Both the treating/ requesting provider and the consultative provider can bill for the eConsult. To

bill NYS Medicaid for eConsults, the provider must be enrolled in NYS Medicaid.

The treating/requesting provider shall provide the NYS Medicaid member with information about the eConsult and obtain consent from the patient prior to each eConsult. A single instance of patient consent cannot apply to multiple eConsults across different specialties. Written consent is not required; however, the provider must document informed consent in the chart of the patient before the eConsult. Patients have the right to refuse an eConsult and see a consultative provider in-person if they wish to do so.

The following information must be documented in the medical record by the treating/requesting provider:

NYS Medicaid

Rate

\$26.56

Billing Both the treating/requesting provider and the consultative provider can bill for an eConsult through independent claims. eConsults should be billed using the following CPT codes:

NY State of Health, the New York State (NYS) official health plan marketplace (Marketplace), released a provider fact sheet titled *Unwinding the Public*

Pharmacy

Zynteglo® (betibeglogene autotemcel): Medicaid Practitioner Administered Drugs Update

Zynteglo® (betibeglogene autotemcel) will be reimbursed by the New York State (NYS) Medicaid fee-for-service (FFS) program for

Medicaid Managed Care (MMC) enrollees and FFS members. The following coverage criteria for Zynteglo® (betibeglogene autotemcel)

applies to FFS members and MMC enrollees, with consideration of approval for treatment-related medical care for MMC enrollees:

• the patient is less than or equal to (≤) fifty years of age. If the patient is less than (<) five years of age, the patient weight must be greater than or equal to

• the patient is a candidate for allogenic hematopoietic cell transplantation, but ineligible due to the absence of a donor; and

• the patient has a diagnosis of transfusion-dependent beta-thalassemia;

HCPCS code for Zynteglo® (betibeglogene autotemcel);

by email at NYRx@health.ny.gov.

• Additional information is available at the following web pages:

o NYS DOH "Welcome to NYRx, the Medicaid Pharmacy Program" web page

o the National Drug Code (NDC) associated with the drug; and

(≥) six kilograms.

For FFS members, the Zynteglo® (betibeglogene autotemcel) Clinical Criteria Worksheet is located on the NYS Department of Health (DOH) "New York State Medicaid Fee-for-Service Practitioner Administered Drug Policies and Billing Guidance – Medicaid Fee-for-Service" web page. Providers should follow the provided outlined process. For MMC enrollees, the Zynteglo® (betibeglogene autotemcel) *Clinical Criteria Worksheet* is located on the <u>NYS DOH "New</u> York State Medicaid Fee-for-Service Practitioner Administered Drug Policies and Billing Guidance – Medicaid Managed Care" web page. The MMC Plan is responsible for submission of this worksheet to NYS DOH by secure email at nys.gov. For additional information regarding the development of the coverage criteria above, providers should refer to the NYS DOH "Drug Utilization Review (DUR) Board – 2022" web page. Billing for Zynteglo® (betibeglogene autotemcel) Facilities and pharmacies enrolled with NYS Medicaid will be reimbursed for the cost of Zynteglo® (betibeglogene autotemcel). Reimbursement requires submission of the following: • Medical Assistance Health Insurance Claim Form (<u>eMedNY 150003</u>) that includes both the following: o the unclassified biologics, Healthcare Common Procedure Coding System (HCPCS) code "J3590" is used until it is replaced with a specific

• a copy of the drug invoice dated within six months prior to the date of service and/or should include the expiration date of the drug. Pharmacy providers must have an "0442" category of service (COS) to submit the <u>eMedNY 150003 form</u> to NYS DOH.

Please note: If actual acquisition cost exceeds what is allowed on the eMedNY 150003 form, a maximum of \$99,999.99 should be submitted on the

claim form. Providers will be reimbursed up to the acquisition cost of the drug based on the invoice submitted, irrespective of the

amount entered. Further information can be found in section 6.5 (Drugs Administered Other Than Oral Method) of the

Physician Medicine, Drugs and Drug Administration Procedure Codes - eMedNY New York State Medicaid Provider Procedure Code Manual.

For FFS members, payment for drug administration will be made through the outpatient Ambulatory Patient Groups (APG) payment when

administered in a clinic setting or, if administered on an inpatient basis, following the All Patient Refined-Diagnosis Related Groups (APR-DRG).

For MMC enrollees, payment for drug administration will be made through the MMC Plan. Providers should check with the MMC

regarding specific medical coverage criteria, and reimbursement. MMC Plan contact and plan directory information can be

found in the eMedNY New York State Medicaid Program Information for All Providers - Managed Care Information document. **Questions and Additional Information:**

o Magellan Inc. NYRx, the Medicaid Pharmacy Program website o NYS DOH website o <u>eMedNY website</u>

• DUR Board information can be found on the NYS DOH "Drug Utilization Review (DUR)" web page.

New York State (NYS) Medicaid fee-for-service (FFS) and Medicaid Managed Care (MMC), including mainstream MMC Plans and Human Immunodeficiency Virus-Special Needs Plans (HIV-SNPs), provide coverage for Nirsevimab, Abrysvo and Arexvy for the prevention of the Respiratory Syncytial Virus (RSV) when administered as recommended by the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention (CDC). RSV ACIP recommendations can be found on the CDC "RSV ACIP Vaccine Recommendations" web page.

Reminder: New York State Medicaid Covers Nirsevimab, Abrysvo and Arexvy

for the Prevention of Respiratory Syncytial Virus

NYRx Billing Instructions for Qualified Pharmacies for Abrysvo and Arexvy Pharmacies must submit the vaccine using the applicable procedure codes, shown in Table 1 above, via the National Council for Prescription Drug Programs (NCPDP) D.0 format. Pharmacies will bill with a quantity and day supply of "1". Additional information for billing the appropriate administration code can be found on the NYRx, the New York State Medicaid Pharmacy Program – Pharmacists as Immunizers Fact Sheet.
