*Procedure codes listed as carve outs should not be billed using APGs. Indication as a carve out does not guarantee alternative payment.

** Procedure codes became obsolete effective 1/1/2017.

Yes = Procedure code is not payable in APGs but is available for billing on ordered ambulatory fee schedule.

No = Procedure code is not reimbursable by Medicaid. Service may be billable under an alternative procedure code.

TBD= At this time Medicaid Policy has not made a final determination regarding these procedures. Once a final determination has been made, they will be adjusted on this list or just added into the general APG logic.
