# Review of Current Status

- On June 21, 2018 CMS advised the State it should use a concurrent 1915(c) and 1115 waiver to implement the Children’s Medicaid Redesign

- Consistent with that timeline, on August 7, 2018 the State submitted a draft 1915(c) Children’s Waiver to CMS and posted the draft for public comment (focus of today’s discussion)
- On August 23, 2018, the State has also submitted to CMS draft “Standards Terms and Conditions” for implementing amendments to the concurrent the 1115 Waiver

# Achieving the Children's Medicaid Redesign

- Per direction of CMS the elements of the Children's Design will be achieved under a different authority, i.e., the concurrent implementation of a 1915(c) Waiver and 1115 Waiver amendments
- As proposed to CMS and subject to their approval, the concurrent waivers achieve all the elements of the Children's Design
- Some of the elements are achieved under the 1915(c) children's waiver (e.g., combining aligned HCBS under a single 1915(c) waiver) and under the 1115 (e.g., authorizing the aligned HCBS to be included in Managed Care benefit package)
- See webpage that provides summary of which authority, the 1915(c) or 1115, will achieve which element of the design
