

Project 3.b.i Monthly Call

My name is Ashley Meskill, and I am the Clinical Project Manager for Project 3.b.i for the Suffolk Care Collaborative. I would like to set up a monthly PPS call for this project to discuss best practices, project implementation, and collaborate as we move through DSRIP together. If you are interested, please email me at Ashley.Meskill@stonybrookmedicine.edu. Thank you in advance and I look forward to collaborating.
