

How many PPS project plans modified

I am writing a summary of the panel oversight meetings over Presidents Week. I listened over webcast. I was wondering: How many PPS project plans were modified. Which one had the closest vote when it came time to the approval vote? Thanks! — Sheila Carmody

PPS plans modified

Sheila, Thanks for the great question. Of the 25 PPS applications presented to the DSRIP Project Approval and Oversight Panel last week, 18 project plans had score modifications. All voting results were very close.
