

Patient Activation Project Presentation from Finger Lakes PPS

Hello fellow 2di project leads,
As we begin to roll out project implementation to our project partners, I find that partners often have questions about what steps they can be taking to get ready. Here is a recent presentation that we used to help. Sharing with other groups if they may find it helpful and if you would like to share how you're getting you're partners informed, that would be helpful to us.

Google chrome is the best browser to view it in.
Please let me know if you have any questions.
Thanks very much,
Cindi

- Thank you for sharing this resource, it's an excellent webinar!

By [Agnes Michalek](#), 4 months ago 2
- Thank you for this feedback Gabe and Agnes, I am planning to do another one in a few weeks with additional input from our partnership and new info, I'll be happy to share that and hope it will be helpful..

- What software did you use for that webinar? It looks terrific!

By [Elizabeth Campisi](#), 3 months ago 2
- Hello Elizabeth its a software called Articulate Storyline 2 - an it has even greater capabilities than what is displayed here. Its a great e-learning course development tool. Our PPS is just experimenting with it.

- Thank you that's really helpful. I just loved that presentation. I'm at at the University at Albany Center for Public Health Continuing Education and we are always interested in checking out new things like this.
