WEBINAR: PPS Preparation for Data Collection Associated with DSRIP Projects- non-claims measures for Domain 2 and 3

June 26, 2015
Presentation Overview

• Purpose of presentation
• Recap: Performance Measures and types of Domain 2 and 3 non-claims measures
• Medical Record Review – Domain 3 projects
• UAS-NY assessments for Palliative Care projects (3.g.i and 3.g.ii)
• Early Elective Delivery for Perinatal projects (3.f.i)
• PAM assessment for UI, NU, and LU for Patient Activation projects (2.d.i)
• Clinician and Group CAHPS Survey of Domain 2 and 3 Projects
Purpose of presentation

• This presentation:
  
  • Provides PPSs with information on what they will need to plan for
  • Provides PPSs with details about:
    • Domain 2 and 3 non-claims performance measures and data required
    • A brief explanation on how PPSs can prepare themselves, including types of resources needed
    • Information about upcoming training sessions available
Domain 2 and 3 - Non-Claims measures

• This presentation illustrates that there are three instances in Domain 3 where non-claims data is required and two instances in Domain 2 in which the PPS’ will be involved in data collection.

• The presentation identifies each of these instances then provides a brief overview of:
  • Timelines
  • Next Steps
  • Resources required
  • Upcoming training sessions

• The presentation is meant to assist PPSs to begin data collection so that they are able to report on non-claims performance measures.
Recap: Performance Measures and Types of Domain 2 and 3 non-claims measures

Performance Measures

Domain 3
- Medical Record Review
- UAS-NY Assessments – Palliative Care Projects
- Early Elective Delivery - Perinatal Care Projects
- PAM (Patient Activation Measure)

Domain 2
- Clinical and Group CAHPS Survey
Perform Medical Record Review

Domain 3 projects
Measures Obtained from Medical Record Review

- Screening for Clinical Depression and Follow-Up (SCD)
- *Cholesterol Management for Patients with CV Conditions (CMC)*
- Controlling High Blood Pressure (CBP)
- Comprehensive Diabetes Care (CDC)
- Viral Load Suppression (VLS)
- Prenatal and Post Partum Care (PPC)
- Frequency of Ongoing Prenatal Care (81% or more)
- Childhood Immunization Status (CIS)
- Lead Screening in Children (LSC)

*Cholesterol Management may be updated based on changes to HEDIS, awaiting approval from CMS*
NYS DOH sponsored C&G CAHPS for Medicaid Enrollees TimeLine

- Mohawk Valley Performing Provider System (Bassett): 423
- Alliance for Better Healthcare, LLC: 423
- Adirondack Health Institute: 423

June 2015
Medical Record Collection - Next Steps

a) PPS Samples Generation and Record Request
   • Secure transfer mechanism between DOH and PPSs

b) Medical Record Abstraction Process (DOH Single Vendor responsible MY 1 because Opt Out will not be completed until after MRR completed)
   • Record collection coordination
   • Review Staff
   • Over-read Staff
   • Data entry

c) Review Validation Process
   • Records and abstraction forms transmitted securely to validation vendor

d) Member Detail File Production
   • Data entry and verification
Medical Record Collection- Next Steps

a) **PPS Sample Generation and Record Request**
   - OQPS will identify a sample population for each PPS (for each measure)
   - File transmitted securely to DOH Single Vendor
   - DOH Single Vendor will manage the following
     - Data available to determine providers
     - Determining record chase logic
     - Request Letter production (members, providers, visit dates)
     - Record retrieval and retention coordination

**TIMEFRAME**: August – September 2015
June 2015

Medical Record Collection- Next Steps

b) **Medical Record Abstraction Process**
- Abstraction tool (paper tool MY1; moving to web application future years)
- PPS Assistance Training (for communication and support of DOH Single Vendor)
- Over-read process for validation of abstraction work
- Support for questions regarding specifications
- Data entry of abstraction findings

**TIMEFRAME:** September– November 2015
Medical Record Collection - Next Steps

c) Review Validation Process

- Validation of the information captured from medical records is important to ensure consistency of results when measuring improvement over time
- Random sample of 30 records per measure will be reviewed
- Validation vendor will review records and issue determination of findings
- Record findings will pass or fail; if the threshold of failures is exceeded, the data for the measure will be invalidated and not included in the result calculation
- Ongoing support form vendor with opportunity to test abstraction findings prior to the validation

TIMEFRAME: mid November – mid December 2015
d) **Member Detail File Production**

- Information collected from medical records extracted/entered into Member Detail File
  - Members excluded from a measure need to be indicated in the denominator column of the measure
  - Members pulled from the oversample need to be indicated in the denominator column
- Review of data entry for errors
  - Counts of denominator columns larger than numerator columns
  - Numerator is ‘0’ whenever denominator is ‘0’
- Secure file transfer to NYS DOH

**TIMEFRAME:** end December 2015 – early January 2016
Medical Record Collection - Resources Required

1. Staff to send letters/emails requesting medical records, coordinate retrieval of records, and organize what records have been reviewed or not

2. Qualified medical record reviewers (number depends on the number of measures associated with your projects)

3. Staff to over-read abstracted data to verify consistency between reviewers, completeness of data elements in review

4. Data entry staff for the medical record findings into a file

5. Technical support to produce the Member Detail file from the data entry file

**PPSs will only be responsible for supporting the DOH Single Vendor. Support activities will include assistance with tracking the sample request, data collection, and follow-up questions. The PPS will not be responsible for hiring a Qualified Medical Record Review vendor.**
Medical Record Collection- Upcoming Training Sessions

WHEN: TBD, July 2015
WHO: PPS staff involved in medical record collection processing
PURPOSE: Train designated staff members how to:
- Coordinate record requests and retrieval
- Determine what providers to ask for records
- Develop data entry system
- Oversee quality of reviews and data entry
UAS-NY Assessments

Palliative Care Projects 3.g.i. & 3.g.ii.
Measures Obtained from Uniform Assessment System

Percentage of members who remained stable or demonstrated improvement in pain
Percentage of members who had severe or more intense daily pain
Percentage of members whose pain was not controlled
Advanced Directives – Talked about appointing for health decisions
Depressive feelings – percentage of members who experienced some depression feeling
<table>
<thead>

<th>Date Anticipated</th>
</tr>
</thead>
<tbody>
<tr>
<td>Collect UAS Assessments for MY 1</td>
<td>DOH</td>
<td>September – December 2015</td>
</tr>
</tbody>
</table>
UAS- NY Assessment – Next Steps

- Review of PPS network for agencies currently conducting UAS-NY assessments (i.e. home care agencies)
- Identification of scope of members in palliative care not currently in long-term home care programs
- Staff needed to conduct UAS-NY assessments for members outside of long-term home care programs
  - Health Commerce System and UAS-NY accounts for staff and lead PPSs
  - Training for staff
- UAS-NY assessments completed every 6 months

TIMEFRAME:

1. Data for MY1 will be based on MLTC UAS-NY assessments attributed to the PPS similar to baseline
2. Data for MY2 will be based on all (both PPS and MLTC) completed UAS-NY assessments attributed to the PPS
1. UAS-NY training and accounts for staff who will be conducting assessments for people not in long-term care programs who are involved in palliative care

2. PPS training to access UAS-NY assessments for completed assessments for the attributed population in palliative care
UAS- NY Assessments- Upcoming Training Sessions

WHEN: TBD

WHO: PPS staff involved in UAS-NY collection

PURPOSE: Share details on:
- Methods to determine trained UAS-NY assessors within PPS network and additional staff training needs
- Set up Health Commerce System and UAS-NY accounts
- Completing UAS-NY training
- Accessing completed assessments in the UAS-NY system
Early Elective Delivery Data

Perinatal Project 3.f.i.

</tr>
</tbody>
</table>

*Data is due no later than the last Wednesday of each subsequent month.*
Early Elective Delivery – Next Steps

- Hospitals participating with a PPS that has selected this project will review medical records for all scheduled births occurring at or after 36 0/7 weeks and at or before 38 6/7 weeks gestation
  - Many hospitals recently participated in the NYS Perinatal Quality Collaborative capturing this measure, but all hospitals in the network are required to review and submit the data forms
- Hospitals will establish Health Commerce System (HCS) accounts to submit the data monthly
- Monthly data will be aggregated for a measurement year result for each hospital and then aggregated to the PPS result

**TIMEFRAME:**
1. Data for MY1 due December 2015 (retrospective)
2. Data for MY2 submitted monthly; begins in July 2015 (prospective)
Early Elective Delivery – Resources Required

1. Hospital staff to complete record review and the NYS PQC form for all scheduled births occurring at or after 36 0/7 weeks and at or before 38 6/7 weeks gestation each month
Early Elective Delivery - Upcoming Training Sessions

WHEN:  Monday June 22, 2015 @ 9:30-10:30am

WHO:  New hospital staff members who are designated to data enter Early Elective Delivery (EED) data

PURPOSE:  Train designated staff members how to:

✓ Complete the NYSPQC Scheduled Delivery Form
✓ Submit data electronically via the Health Commerce System (HCS)
Patient Activation Activities
(P.A.M. Survey)

Project 2.d.i.
## PAM Survey- Timeline

</tr>
</tbody>
</table>
PAM Survey– Next Steps

- DOH is working through policy decisions related to the methodology of PAM application and tracking
- State will release training dates soon for;
  - Scope of assessment
  - Identification of LU, NU, UI members
  - Staff needed to conduct PAM survey
    - Insignia accounts for staff and lead PPSs
    - Training for staff
  - Data Collection and aggregation

**TIMEFRAME: July – September 2015**
1. Insignia training and accounts for staff who will be conducting PAM surveys
PAM Survey - Upcoming Training Sessions

**WHEN:** TBD

**WHO:** Staff members who are designated to perform PAM

**PURPOSE:** Train designated staff members how to apply the PAM tool
Clinical and Group CAHPS Survey

Domain 2 and 3
Clinical and Group CAHPS Survey – Next Steps

- DOH is working to hire DataStat to conduct the CAHPS Survey for the Domain 2 and 3 C&G Measures
  - DataStat will prepare the questionnaire, select the sample frame, and administer the survey with a mixed mail/phone methodology in a 5 wave procedure over a 12 week time frame
  - The completed surveys are processed and analyzed for PPS results for a number of composites, ratings and measures

Project 2.d.i - DOH is working with CMS to amend and possibly remove this metric. More information will be provided as soon as it is available.
