Medicare Access and CHIP Reauthorization ACT of 2015 (MACRA) and NYS VBP Alignment

Gregory Allen, MSW | Director, Division of Program Development and Management, New York State Department of Health

Douglas Fish, MD, Medical Director, Division of Medical & Dental Directors | New York State Department of Health

Richard Jensen, MPP; Senior Policy Advisor | Center for Medicare & Medicaid Innovation
Agenda

I. Introduction, NYS Department of Health, Office of Health Insurance Programs

II. Center for Medicare & Medicaid Innovation Overview of Advanced Alternative Payment Models (AAPM) in the Quality Payment Program (QPP)

III. Overview of MACRA alignment with NYS Medicaid’s Valued Based Payment (VBP) Roadmap

IV. Summary and Q&A
I. Introductions & Purpose of Webinar
Purpose of Webinar

• Provide an overview of the MACRA program, explain how MACRA and the NYS Medicaid VBP model align, and demonstrate the opportunity this presents for clinicians across the State.

• This webinar will also describe the benefits of the Advanced Alternative Payment Model track and explain what providers may want to consider as they pursue alternative payment arrangements for Medicare and Medicaid.
II. CMMI Overview of Provider Initiated Process for Advanced Alternative Payment Model Track

Richard Jensen, MPP; Senior Policy Advisor | Center for Medicare & Medicaid Innovation
Advanced Alternative Payment Models (APMs)

Pathways to Qualifying APM Participant (QP) Status
Richard Jensen

Senior Policy Advisor
Center for Medicare & Medicaid Innovation (CMMI)
The Quality Payment Program

The Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) requires CMS by law to implement an incentive program, referred to as the Quality Payment Program, that provides for two participation tracks:

- **MIPS (Merit-based Incentive Payment System)**
- **Advanced APMs (Advanced Alternative Payment Models)**

There are two ways to take part in the Quality Payment Program:

- **MIPS**
  - If you are a MIPS eligible clinician, you will be subject to a performance-based payment adjustment through MIPS.

- **Advanced APMs**
  - If you decide to take part in an Advanced APM, you may earn a Medicare incentive payment for sufficiently participating in an innovative payment model.
Alternative Payment Model (APM) Overview

APMs are new approaches to paying for medical care through Medicare that often incentivize quality and value. The CMS Innovation Center develops new payment and service delivery models. Additionally, Congress has defined—both through the Affordable Care Act and other legislation—a number of demonstrations to be conducted by CMS.

As defined by MACRA, APMs include:

- CMS Innovation Center model (under section 1115A, other than a Health Care Innovation Award)
- Shared Savings Program
- Demonstration under the Health Care Quality Demonstration Program
- Demonstration required by federal law
Advanced APMs

- Clinicians and practices can receive **greater rewards** for taking on some risk related to patient outcomes

- Advanced APMs
  - Require participants to use certified EHR technology
  - Base payment for covered professional services on quality measures comparable to those in MIPS
  - Entities bear more than nominal financial risk, or APM is a Medical Home Model Expanded under Innovation Center authority
Benefits of Participating in an Advanced APM as a Qualifying APM Participant (QP)

QPs:

- Are excluded from the MIPS
- Receive a 5% incentive payment per payment year through 2024
- Receive a higher Physician Fee Schedule update starting in 2026

All-Payer Combination Option & Other Payer Advanced APMs
All-Payer Combination Option
Overview

The MACRA statute created two pathways to allow eligible clinicians to become QPs.

Medicare Option

- Available for all performance years.
- Eligible clinicians achieve QP status exclusively based on participation in Advanced APMs with Medicare.

All-Payer Combination Option

- Available starting in Performance Year 2019.
- Eligible clinicians achieve QP status based on a combination of participation in:
  - Advanced APMs with Medicare; and
  - Other Payer Advanced APMs offered by other payers.
**All-Payer Combination Option**

All-Payer Combination Option & Other Payer Advanced APMs

Other Payer Advanced APMs are non-Medicare payment arrangements that meet criteria that are similar to Advanced APMs under Medicare.

Payer types that may have payment arrangements that qualify as **Other Payer Advanced APMs** include:

- Title XIX (Medicaid)
- Medicare Health Plans (including Medicare Advantage)
- Payment arrangements aligned with CMS Multi-Payer Models
- Other commercial and private payers
All-Payer Combination Option
Other Payer Advanced APM Criteria

The criteria for determining whether a payment arrangement qualifies as an Other Payer Advanced APM are similar, but not identical, to the comparable criteria used for Advanced APMs under Medicare:

1. **Requires at least 50 percent of eligible clinicians to use certified EHR technology to document and communicate clinical care information.**

2. **Base payments on quality measures that are comparable to those used in the MIPS quality performance category.**

3. **Either: (1) is a Medicaid Medical Home Model that meets criteria that are comparable to a Medical Home Model expanded under CMS Innovation Center authority, OR (2) requires participants to bear more than nominal amount of financial risk if actual aggregate expenditures exceed expected aggregate expenditures.**
All-Payer Combination Option
Other Payer Advanced APM Criteria

The generally applicable nominal amount standard for an Other Payer Advanced APM will be applied in one of two ways depending on how the Other Payer Advanced APM defines risk.

### Expenditure-based Nominal Amount Standard

Nominal amount of risk must be:

- Marginal Risk of at least 30%;
- Minimum Loss Rate of no more than 4%; and
- Total Risk of at least 3% of the expected expenditures the APM Entity is responsible for under the APM.

### Revenue-based Nominal Amount Standard

- Nominal amount of risk must be:
  - Marginal Risk of at least 30%;
  - Minimum Loss Rate of no more than 4%; and
  - For QP Performance Periods 2019 and 2020, Total Risk of at least 8% of combined revenues from the payer of providers and other entities under the payment arrangement if financial risk is expressly defined in terms of revenue.
A Medicaid Medical Home Model is a payment arrangement under Medicaid (Title XIX) that has the following features:

- Participants include primary care practices or multispecialty practices that include primary care physicians and practitioners and offer primary care services.
- Empanelment of each patient to a primary clinician; and
- At least four of the following additional elements:
  - Planned coordination of chronic and preventive care.
  - Patient access and continuity of care.
  - Risk-stratified care management.
  - Coordination of care across the medical neighborhood.
  - Patient and caregiver engagement.
  - Shared decision-making.
  - Payment arrangements in addition to, or substituting for, fee-for-service payments.

Medicaid Medical Home Models are subject to different (more flexible) standards in order to meet the financial risk criterion to become an Other Payer Advanced APM.
The Medicaid Medical Home Model must require that the total annual amount that an APM Entity potentially owes a payer or foregoes under the Medicaid Medical Home Model is at least:

- 3 percent of the average estimated total revenue of the participating providers or other entities under the payer in 2019.
- 4 percent of the average estimated total revenue of the participating providers or other entities under the payer in 2020.
- 5 percent of the average estimated total revenue of the participating providers or other entities under the payer in 2021 and later.
All Payer Combination Option: Determination of Other Payer Advanced APMs
There are two pathways through which a payment arrangement can be determined to be an Other Payer Advanced APM.

**Payer Initiated Process**
- Voluntary.
- Deadline is **before** the QP Performance Period.
- Specific deadlines and mechanisms for submitting payment arrangements vary by payer type in order to align with pre-existing processes and meet statutory requirements.

**Eligible Clinician Initiated Process**
- Deadline is **after** the QP Performance Period, **except** for eligible clinicians participating in Medicaid payment arrangements.
- Overall process is similar for eligible clinicians across all payer types, except for the submission deadlines.
Overview – Payer Initiated Process

Prior to each QP Performance Period, CMS will make Other Payer Advanced APM determinations based on information voluntarily submitted by payers.

This Payer Initiated Process will be available for Medicaid, Medicare Health Plans (e.g., Medicare Advantage, PACE plans, etc.) and payers participating in CMS Multi-Payer Models beginning in 2018 for the 2019 QP Performance Period. We intend to add remaining payer types in future years.

Guidance materials and the Payer Initiated Submission Form will be made available prior to each QP Performance Period.

CMS will review the payment arrangement information submitted by each payer to determine whether the arrangement meets the Other Payer Advanced APM criteria.

CMS will post a list of Other Payer Advanced APMs on a CMS website prior to the QP Performance Period.
All-Payer Combination Option
Determinations of Other Payer Advanced APMs

Overview – Eligible Clinician Initiated Process

If CMS has not already determined that a payment arrangement is an Other Payer Advanced APM under the Payer Initiated Process, then eligible clinicians (or APM Entities on their behalf) may submit this information and request a determination. CMS would then use this information to determine whether the payment arrangement is an Other Payer Advanced APM.

Guidance materials and the Eligible Clinician Initiated Submission Form will be provided during the QP Performance Period with submission due after the QP Performance Period.

• Note, eligible clinicians or APM Entities participating in Medicaid payment arrangements will be required to submit information for Other Payer Advanced APM determinations for those Medicaid payment arrangements only prior to the QP Performance Period.

CMS will review the payment arrangement information submitted by APM Entities or eligible clinicians to determine whether the payment arrangement meets the Other Payer Advanced APM criteria.
All-Payer Combination Option
Timeline for Determinations of Other Payer Advanced APMs for 2020

**Medicaid**

- **January 2019**: Submission form available for States
- **April 2019**: Deadline for State submissions
- **September 2019**: Submission form available for ECs. CMS posts initial list of Medicaid APMs
- **November 2019**: Deadlines for EC submissions
- **December 2019**: CMS posts final list of Medicaid APMs

**Commercial and CMS Multi-Payer Models**

- **January 2019**: Submission form available for Other Payers
- **June 2019**: Deadline for Other Payer submissions
- **September 2019**: CMS posts list of Other Payer Advanced APMs for PY 2019
- **August 2020**: Submission form available for ECs
- **December 2020**: CMS updates list of Other Payer Advanced APMs for PY 2019. Deadline for EC submission

Deadline for EC submissions
All Payer Combination Option: QP Determinations
All-Payer Combination Option
QP Performance Period

The All-Payer QP Performance Period is the period during which CMS will assess eligible clinicians’ participation in Advanced APMs and Other Payer Advanced APMs to determine if they will be QPs for the payment year.

The All-Payer QP performance Period will be from January 1 through June 30 of the year that is two years prior to the payment year. Under this proposal, CMS will make QP determinations under the All-Payer Combination Option from either January 1 - March 31, January 1 – June 30, or January 1 – August 31.
## All-Payer Combination Option

### QP Determination Process

An Eligible Clinician or APM Entity needs to participate in an Advanced APM with Medicare to a sufficient extent to qualify for the All-Payer Combination Option.

For performance year 2019, based on the payment amount method, sufficient means:

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt;25%</td>
<td>Eligible Clinician or APM Entity does not qualify to participate in All-Payer Combination Option.</td>
</tr>
<tr>
<td>25% - 50%*</td>
<td>Eligible Clinician or APM Entity does qualify to participate in the All-Payer Combination Option.</td>
</tr>
<tr>
<td>≥50%</td>
<td>Eligible Clinician or APM Entity attains QP status based on Medicare Option alone. Participation in the All-Payer Combination Option is not necessary.</td>
</tr>
</tbody>
</table>

*Eligible clinicians must have greater than or equal to 25% and less than 50% of payments through an Advanced APM(s).
All-Payer Combination Option
QP Determination Process

Under the All-Payer Combination Option, an Eligible Clinician or APM Entity needs to be in at least one Other Payer Advanced APM during the relevant QP Performance Period.

Eligible clinicians or APM Entities seeking a QP Determination under the All-Payer Combination Option will**:

1. Inform CMS that they are in a payment arrangement that CMS has determined is an Other Payer Advanced APM; and
2. Submit information to CMS on a payment arrangement where CMS will make an Other Payer Advanced APM determination.

**Note that eligible clinicians in Medicaid payment arrangements only would have the option to submit their payment arrangement information prior to the relevant QP Performance Period.
All-Payer Combination Option
QP Determination Process

Between August 1 and December 1 after the close of the QP Performance Period, eligible clinicians or APM Entities seeking QP determinations under the All-Payer Combination Option would submit the following information:

• Payments and patients through Other Payer Advanced APMs, aggregated between January 1 – March 31, January 1 – June 30, and January 1 – August 31.

• All other payments and patients through other payers except those excluded, aggregated between January 1 – March 31, January 1 – June 30, and January 1 – August 31.

Eligible clinicians may submit information on payment amounts or patient counts for any or all of the 3 snapshot periods. Information can be submitted at either the individual level or the APM Entity level.
QP Determinations under the All-Payer Combination Option:

Eligible clinicians and APM Entities will have the option to request All-Payer QP determinations. Eligible clinicians can request at either the individual level, and APM Entities can request at the APM Entity level.

CMS will calculate Threshold Scores under both the payment amount and patient count methods, applying the more advantageous of the two:

### Payment Amount Method

\[
\text{Threshold Score} = \frac{\text{All-Payer QP determinations}}{\text{from all payers (except excluded $$)}}}
\]

### Patient Count Method

\[
\text{Threshold Score} = \frac{\text{All-Payer QP determinations}}{\text{from all payers (except excluded patients)}}
\]
The MACRA statute directs us to exclude certain types of payments (and we will for associated patients).

Specifically, that list of excluded payments includes, but is not limited to, Title XIX (Medicaid) payments where no Medicaid APM (which includes a Medicaid Medical Home Model that is an Other Payer Advanced APM) is available under that state program.

In the case where the Medicaid APM is implemented at the sub-state level, Title XIX (Medicaid) payments and associated patients will be excluded unless CMS determines that there is at least one Medicaid APM available in the county where the eligible clinician sees the most patients and that eligible clinician is eligible to participate in the Other Payer Advanced APM based on their specialty.

Resources
Technical Assistance

CMS has **free** resources and organizations on the ground to provide help to eligible clinicians included in the Quality Payment Program:

**PRIMARY CARE & SPECIALIST PHYSICIANS**
Transforming Clinical Practice Initiative

- Supports more than 140,000 clinician practices through active, collaborative and peer-based learning networks over 4 years.
- Practice Transformation Networks (PTNs) and Support Alignment Networks (SANs) are located in all 50 states to provide comprehensive technical assistance, as well as tools, data, and resources to improve quality of care and reduce costs.
- The goal is to help practices transform over time and move toward Advanced Alternative Payment Models.
- Contact TCPINMail@us.ibm.com for extra assistance.

**LARGE PRACTICES**
Quality Innovation Networks-Quality Improvement Organizations (QIN-QIO)

- Supports clinicians in large practices (more than 15 clinicians) in meeting Merit-Based Incentive Payment System requirements through customized technical assistance.
- Includes one-on-one assistance when needed.
- There are 14 QIN-QIOs that serve all 50 states, the District of Columbia, Guam, Puerto Rico, and Virgin Islands.

**SMALL & SOLO PRACTICES**
Small, Underserved, and Rural Support (SURS)

- Provides outreach, guidance, and direct technical assistance to clinicians in solo or small practices (15 or fewer), particularly those in rural and underserved areas, to promote successful health IT adoption, optimization, and delivery system reform activities.
- Assistance will be tailored to the needs of the clinicians.
- There are 11 SURS organizations providing assistance to small practices in all 50 states, the District of Columbia, Puerto Rico, and the Virgin Islands.
- For more information or for assistance getting connected, contact OPPSURS@IMPAINT.COM.

**TECHNICAL SUPPORT**
All Eligible Clinicians Are Supported By:

- Quality Payment Program Website: [app.cms.gov](http://app.cms.gov)
  - Serves as a starting point for information on the Quality Payment Program.
- Quality Payment Program Service Center
  - Assists with all Quality Payment Program questions.
  - 1-866-288-8292 TTY: 1-877-715-6222 QPP@cms.hhs.gov

III. NYS Overview on MACRA Alignment with NYS Value Based Payment

Douglas Fish, MD, Medical Director, Division of Medical & Dental Directors | New York State Department of Health
Review

QPP Participation Tracks

Quality Payment Program Eligible Clinicians

- MIPS
- Advanced APM

Medicare Advanced APM Only Option

- Title XIX (Medicaid and Medicaid Medical Home Models)
- Medicare Health Plans (including Medicare Advantage)
- Payment arrangements aligned with CMS Multi-Payer Models
- Other Commercial and Private Payers

All Payer Combination Option

Medicare Advanced APMs

Other Payer Advanced APMs
1 – CEHRT Requirements

**Other Payer Advanced APM Criteria**

- To become a Qualifying Participant for an advanced alternative payment model in 2019, 75% of practices need to be using certified EHR Technology within the Advanced APM entity.

**Medicaid VBP**

- The NYS VBP Roadmap does not have any specific requirement governing the use of CHERT.
- If a provider meets the AAPM requirements, this is satisfactory for the NYS VBP model, specifically governing the use of CEHRT.

**Key Takeaway:** This is one of the largest differences between Medicaid VBP and the QPP requirements to meet Other Payer Advanced APM criteria; **VBP contractors will need to include additional terms outside of the state’s criteria.**
2 – Quality Measurement Tied to Payment

**Other Payer Advanced APM Criteria**

- Contract must specify payment based on quality measures comparable to those in the MIPS quality performance category, including at least one outcome measure.

**Medicaid VBP**

- Quality measures must be incorporated into the payment arrangement and used to determine the amount of shared savings for which VBP contractors are eligible.
- State will not define or enforce what quality measures are selected or the approach used to evaluate performance/reward providers.
- Many of the AAPM measures are contained in the VBP measure sets. See Appendix.

**Key Takeaways:** To meet Other Payer Advanced APM criteria, VBP contractors must select and incorporate MIPS comparable quality measures into the VBP contract.
## 3 – Financial Risk

<table>
<thead>
<tr>
<th></th>
<th>Marginal Risk</th>
<th>Minimum Loss Rate</th>
<th>Total Risk</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>MACRA All Payer Combination Option Risk Requirements</strong></td>
<td>Marginal Risk of ≥ 30%</td>
<td>Minimum Loss Rate of ≤ 4%</td>
<td>Based on Other Payer Advanced APM definition of risk; Total Risk of &gt;3% expected Expenditures or &gt;8% of Contracted Provider Revenues</td>
</tr>
<tr>
<td></td>
<td>Marginal risk defines the percentage for which the contracted provider entity is liable for if actual expenditures are higher than expected (higher than the benchmark).</td>
<td>A percentage by which actual expenditures may exceed expected expenditures without triggering financial risk.</td>
<td>Defined as the maximum potential payment for which an APM Entity could be liable under a payment</td>
</tr>
<tr>
<td><strong>NYS VBP Risk Requirements</strong></td>
<td>A provider that meets MACRA risk standard would also meet NYS VBP risk standard</td>
<td>In the NYS VBP model, the minimum percentage of potential losses to be allocated to a provider is 20%, and where stop loss is capped, at least 3% of the target budget.</td>
<td>The NYS VBP model aligns with the expenditure based model. In the NYS model, providers must adopt risk of at least 3% of the target budget based on expenditure. In year 2, the amount of risk increases to at least 5% of the target budget based on expenditure.</td>
</tr>
</tbody>
</table>

**Key Takeaways:** To meet Other Payer Advanced APM requirements, VBP contractors must define financial risk in VBP contracts to meet both State- and CMS-defined criteria.
VBP Alignment with QPP Quality Measure Requirements

QPP Requirements

- The Advanced APM Track: In order to be deemed an Advanced APM, the contractual arrangement must include MIPS-comparable* quality measures tied to payment, including 1 outcome measure on the MIPS Measure List.
