HIT-Enabled Quality Measurement SubTeam
Task Force Sub-team Meeting #1

James Kirkwood
*Director, Division of Healthcare Innovation*
Office of Quality and Patient Safety

Lindsay Cogan, PhD, MS
*Director, Division of Quality Measurement*
Office of Quality and Patient Safety

June 30, 2017
## Agenda

Introductions

One person from each organization:

• Please identify yourself and your team when called upon
• Describe your goals and/or expectations for the sub-team
VBP Measure Set Development: *Crawl, Walk, Run!*  

<table>
<thead>
<tr>
<th>Status in VBP</th>
<th>Data Availability and Sources</th>
<th>Data Collection and Infrastructure</th>
</tr>
</thead>
</table>
| • Several measures require final specifications and/or clinical or other data elements | • Assess data availability  
• Identify and investigate potential data sources  
• Survey technological capabilities | • Gather requirements for data collection  
• Begin developing infrastructure to support new data sources |
| • Work with measure stewards to develop and finalize specifications | • Implement new data and reporting flows  
• Develop additional data sources | • Initiate testing and evaluation of data collection methodologies  
• Work closely with technology vendors |
| • Fully developed VBP measures included in Measurement Years 2018 and 2019 | • Coordination established with Qualified Entities (QEs) for clinical data integration | • Data and reporting flows established  
• New data source infrastructure established |

*Note: Timelines will vary. The intent is to make substantive contributions within each phase to help realize NYS VBP Roadmap goals.*
# CQMs – Where Does Electronic Clinical Data Fit?

<table>

</table>

**CLINICAL QUALITY MEASURES**

- **EHR** – Electronic Health Record
- **CDR** – Clinical Data Repository
Proposed Goals

- Identify needs of VBP pilot participants for clinical data to enable and enhance quality measurement
- Explore how those needs can be met using existing or new capabilities of QEs or other data sources
- Develop a roadmap of short- and long-term options for meeting needs
Task Force Survey

• The New York State Department of Health is interested in obtaining information from the Pilots in the following categories to help inform the current and future timeline for Value Based Payment (VBP) clinical quality measures:

  1. Data Collection
  2. Unit of Analysis
  3. Measure Efficiency
  4. Measure Development Process

• A survey will be distributed to all Pilots on Friday, June 30th.
• Please respond by July 14th, regardless of participation in a Task Force sub-team.
• Responses will inform Task Force sub-team discussions and activities.
Upcoming Meetings

• Wednesday, July 26, 10:00-11:00 AM
• Thursday, August 24, 4:00-5:00 PM
• Wednesday, September 27, 4:00-5:00 PM
• Friday, October 27, 1:00-2:00 PM
