

Meaningful Use Registration for Public Health (MURPH) Onboarding Status Quick Reference Guide

This document defines the onboarding statuses that Eligible Professionals (EPs) and Eligible Hospitals (EHs) may encounter when using the MURPH Audit Report Card.

Active Engagement Statuses			
Active Engagement	Status	Definition	General Guidance
AE1	In Queue	An Eligible Provider that has yet to be reviewed by the registry must be assigned the status of “In Queue.” Statuses will stay “In Queue” until the registry is ready to engage in onboarding activities.	No provider action necessary
AE1	Awaiting Invitation to Test	An Eligible Provider that has been reviewed and is an appropriate provider type to submit data to the public health registry must be assigned the status of “Awaiting Invitation to Test.”	No provider action necessary
AE1	Invited to Test - 1st Invitation to Test	An Eligible Provider that has been sent their first invitation to test must be assigned the status of “Invited to Test-1 st Invitation to Test.”	The EP or EH must respond to the Invitation to be considered in Active Engagement
AE1	Invited to Test - 2nd Invitation to Test	An Eligible Provider that has been sent their second invitation to test must be assigned the status of “Invited to Test-2 nd Invitation to Test.”	The EP or EH must respond to the Invitation to be considered in Active Engagement
AE1	NCO - EHR Migration	An Eligible Provider transitioning to a new EHR system must be assigned the status of “Not Currently Onboarding-EHR Migration.”	The EP or EH must contact the registry once the EHR migration is complete upon and agree upon a timeline to re-initiate the onboarding process to be

			considered in Active Engagement Option 1 status.
AE1	In Remediation - Wrong Jurisdiction	An Eligible Provider operating in a jurisdiction different than the one selected on their MU registration must be assigned the status of "In Remediation-Wrong Jurisdiction."	The EP or EH in this status must log in to their MURPH Registration and update the appropriate Jurisdiction (Inside or Outside NYC) corresponding to their Practice Location Address.
AE1	NCO – Registry Priority	The Public Health Registry may choose to prioritize registrations based on a certain set of criteria. This status is used by the registry to categorize registrations that may be onboarded in the future.	The EP or EH in this status will be considered in Active Engagement Option 1, until the registry is ready to engage in testing.
AE2	Invited to Test - Ready to Test	An Eligible Provider that has responded to either the 1 st or 2 nd invitation to test with a willingness to initiate testing must be assigned the status of "Invited to Test-Ready to Test."	The EP or EH in this status must wait for the registry to initiate the testing process.
AE2	Engaged in Testing	An Eligible Provider that is participating in interoperability or data testing with the public health registry must be assigned the status of "Engaged in Testing."	No provider action necessary
AE3	Ongoing Submission	An Eligible Provider that is submitting production data to the public health registry that conforms to the relevant MU standard must be assigned the status of "Ongoing Submission."	No provider action necessary

Non-Active Engagement Statuses			
Non Active Engagement	Status	Definition	General Guidance
N/A	Non-Responsive	An Eligible Provider must be put in the status of “Non-Responsive” if no ‘valid’ invitation to test response is received by the public health registry within 30 days of the sent date of the 2nd invitation to test communication or 2nd request for action communication.	The EP or EH in this status must respond to the ‘Invitation to Test’ communication sent by the registry to be considered in Active Engagement.
N/A	In Remediation-Registration Update	An Eligible Provider must be placed in the status of “In Remediation- Registration Update” if the provider is in the process of reconciling their registration to eliminate practice locations that do not participate with the public health reporting measure the provider attested YES for.	The EP or EH in this status MUST update their registration and correct attestation for practice locations to reflect the measures that EP/EH at that location will participate with.
N/A	NCO - EHR Conflict	An Eligible Provider using a Certified EHR Technology that is unable to connect to the registry due to various technical or administrative limitations must be assigned the status of “Not Currently Onboarding- EHR Conflict.”	The EP or EH must adopt a CEHRT version that is capable of submitting data to the registry in a Meaningful Use (MU) compliant format in order to be considered in Active Engagement Option 1 status.
N/A	NCO - Duplicate Registration	An Eligible Provider having more than one registration for the same practice location must be assigned the status of “Not Onboarding - Duplicate Registration.”	The EP or EH must update their Meaningful Use registration and remove the duplicate record. The EP or EH should reference the registration record that is in use by the public health registries to determine the

			appropriate Active Engagement Option status.
N/A	NCO - Incorrect Registry	An Eligible Provider that has incorrectly registered and does not participate in the public health reporting measure for a specific registry must be assigned the status of “Not Onboarding - Incorrect Registry.”	The EP or EH is required to meet the Public Health Reporting Measure by selecting an alternative option that is appropriate for their practitioner type. Due to the EP or EH incorrectly selecting the registry, that provider would not be considered actively engaged. Please review the Public Health Reporting website for available registries that are sponsored by the New York City Department of Health and Mental Hygiene (NYC DOHMH) and the New York State Department of Health (NYS DOH).
N/A	NCO - Invalid record	An Eligible Provider who is retired, deceased, or the practice has closed and does not participate in the public health reporting measure for a specific registry, must be assigned the status of “Not Onboarding - Invalid Record.”	The EP or EH in this status must contact the registry should they believe the information is incorrect to be moved to an Active Engagement Status.
DELETED	Deleted	All Eligible Providers working at a Practice Location that has been deleted from the organization’s updated MURPH registration must be assigned the status of “Deleted.”	The EP must update their MURPH registration and add the Practice Location that they believe was incorrectly deleted by their organization.

Glossary of Terms

Acronym	Description
AE1	Active Engagement Option 1 (Completed Registration to Submit Data)
AE2	Active Engagement Option 2 (Testing and Validation)
AE3	Active Engagement Option 3 (Production)
N/A	Not an Active Engagement Status, contact registry for additional clarification if needed.
NCO	Not Currently Onboarding
