MEIPASS Document Download

[MEIPASS](#), in addition to being the attestation portal for the program, also stores PDF copies of each submitted attestation for providers to download. Keeping a copy of your attestations is not just good record keeping practice, but very helpful in determining what information you will need to support if your submission is selected for Post-Payment Audit. We recommend that a provider or organization download all attestations that are less than 6 years old for this reason.

All attestations will be available for download in MEIPASS until **December 31st, 2021**. It is highly recommended that participants download a copy of all recent attestations before this date, as there will be no access to the system following this cut off. If you need assistance downloading your attestation information, please contact our support team by phone at (877) 646-5410, Option 2 or by email at hit@health.ny.gov.

Audit Report Card Download Reminder

Following the close of the MURPH system on **December 31st, 2021** your Audit Report Card will serve as the main source of proof for your engagement status with any registries housed in this system. We encourage all Registration and Alternate contacts to download the Audit Report Cards for their organization in the [Meaningful Use Registration for Public Health \(MURPH\) system](#) as soon as possible.
