Provider Compliance Summary

Requirements for All HCBS Settings		
Compliant?	Federal Requirement	Summary
<p><i>42 CFR 441.301(c)(4)(i)</i></p> <p>Partially Compliant</p>	<p>The setting is integrated in and supports full access of individuals receiving Medicaid HCBS to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.</p>	<p>DOH verified members have access to the greater community by confirming transportation options, support for volunteer/employment opportunities, staff resources, and that member preferences are accommodated by reviewing activity calendars, transportation schedules, daily sign-in/out sheets, and inclusion of preferences in member's PCSP. The SADC has demonstrated compliance in all areas of the standards except for the following: Goals listed in the</p>

		PCSP reviewed did not indicate community integration. The SADC did not provide activities in the community due to COVID and could not explain how they assist members with obtaining volunteer or employment opportunities in a competitive setting. Remediation efforts include a clarification on community activities available to members, a community event notice and sign up sheet for employment and volunteer opportunities, and updates to SADC PCSPs to include a community integration activities section, which will be completed by 7/1/2024.
42 CFR 441.301(c)(4)(ii) Compliant	The setting is selected by the individual from among setting options, including non-disability specific settings and an option for a private unit in a residential setting. The setting options are identified and documented in the person-centered service plan and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board.	The member must choose the SADC site prior to attending. This is done through the person-centered planning process, which is conducted by the MLTC plan. If it is determined the member qualifies and needs SADC, the MLTC plan care manager supplies a list of available SADC site options, and the member makes their selection of where they would like to attend and receive services. The MLTC plan care manager documents the need and the choice of SADC site in the MLTC plan PCSP.
42 CFR 441.301(c)(4)(iii) Compliant	Ensures an individual's rights of privacy, dignity and respect, and freedom from coercion and restraint.	DOH verified members have privacy, are treated with respect and dignity, and are supported to choose their own schedules and activities based on their preferences by reviewing member PCSPs, SADC policy manuals, member experience surveys, staff training topics, and observing the spaces allocated for privacy.
42 CFR 441.301(c)(4)(iv) Partially Compliant	Optimizes, but does not regiment, individual initiative, autonomy, and independence in making life choices, including	DOH verified staffing ratios, programming, and recreational areas as well as any barriers to free movement, and those

	but not limited to, daily activities, physical environment, and with whom to interact.	individualized activities are offered by reviewing staff schedules, member PCSPs, activity schedules, and through on-site observation. The SADC has demonstrated compliance in all areas of the standards except for the following: The SADC PCSPs do not include individualized activities for each member, PCSP goals and activities are recommended for members and choices appear to be limited in each PCSP. Remediation efforts include updating the SADC PCSP to include community integration options, goals, personal care options, and a section to list supports and/or modifications, and will be completed by 3/17/23.
42 CFR 441.301(c)(4)(v) Compliant	Facilitates individual choice regarding services and supports, and who provides them.	DOH verified staff knowledge of members' needs and interests, as well as members' individual choice regarding their activities and supports, and the staff who provide them by evaluating member experience survey results, and reviewing SADC policies, and member handbooks, as well as through observation during the virtual on-site review.
Additional Requirements for Provider-Owned or Controlled Settings		
Compliant?	Federal Requirement	Summary
<i>Standards for Provider-Owned and Controlled Residential and Non-Residential Settings</i>		
42 CFR 441.301(c)(4)(vi)(C) Compliant	Individuals have the freedom and support to control their schedules and activities; and have access to food any time.	DOH verified the availability for meal options, private dining spaces, activity modifications, and the freedom to take breaks and eat meals at the member's request by reviewing weekly menus, policy manuals, and through on-site observation.
42 CFR 441.301(c)(4)(vi)(D) Compliant	Individuals are able to have visitors of their choosing at any time.	DOH verified the acceptance of visitors during program hours by reviewing visitor policies and sign-in/out forms.

42 CFR 441.301(c)(4)(vi)(E) Compliant	The setting is physically accessible to the individual. (Not modifiable)	DOH verified accessibility of the facility through observation, during the virtual on-site review.
42 CFR 441.301(c)(4)(vi)(F) Compliant	Any modifications of the additional conditions under 441.301(c)(4)(vi)(A) through (D) for provider-owned and controlled settings must be supported by a specific assessed need and justified in the person-centered service plan.	The member SADC PCSPs reviewed did not require a modification. However, the SADC PCSP template has a section for indicating any necessary modifications.
Standards for Provider-Owned and Controlled Residential Settings Only		
42 CFR 441.301(c)(4)(vi)(A) Not Applicable	The unit or dwelling is a specific physical place that is owned, rented, or occupied under a legally enforceable agreement by the individual receiving services, and the individual has the same responsibilities and protections from eviction as all tenants under landlord/tenant law of the State, county, city, or other designated entity. In settings where tenant laws do not apply, a lease, residency agreement or other written agreement is in place providing protections to address eviction processes and appeals comparable to those provided under the jurisdiction's landlord/tenant law.	SADC sites are non-residential, and therefore this standard is not applicable.
42 CFR 441.301(c)(4)(vi)(B) Not Applicable	Each individual has privacy in their sleeping or living unit: (1) Units have entrance doors lockable by the individual, with only appropriate staff having keys to doors. (2) Individuals sharing units have a choice of roommates in that setting. (3) Individuals have the freedom to furnish and decorate their sleeping or living units within the lease or other agreement.	SADC sites are non-residential, and therefore this standard is not applicable.

Recommendation
