The SADC has demonstrated</p>

	of access as individuals not receiving Medicaid HCBS.	compliance in all areas of the standards except for the following: Community integration documentation was limited to on-site activities, community integration was not documented as a choice in the PCSP, goals and community supports were limited in the SADC PCSP, and there was no supporting documentation for volunteer and/or employment opportunities. Remediation will include implementing a community board to post volunteer and/or employment opportunities, updates to the SADC PCSP template to include a community integration activities section, individualized goals, and community modifications and supports sections, and will be completed by 7/1/2024.
42 CFR 441.301(c)(4)(ii) Compliant	The setting is selected by the individual from among setting options, including non-disability specific settings and an option for a private unit in a residential setting. The setting options are identified and documented in the person-centered service plan and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board.	The member must choose the SADC site prior to attending. This is done through the person-centered planning process, which is conducted by the MLTC plan. If it is determined the member qualifies and needs SADC, the MLTC plan care manager supplies a list of available SADC site options, and the member makes their selection of where they would like to attend and receive services. The MLTC plan care manager documents the need and the choice of SADC site in the MLTC plan PCSP.
42 CFR 441.301(c)(4)(iii) Partially Compliant	Ensures an individual's rights of privacy, dignity and respect, and freedom from coercion and restraint.	DOH verified members have privacy, are treated with respect and dignity, and are supported to choose their own schedules and activities based on their preferences by reviewing member PCSPs, SADC policy manuals, member experience surveys, staff training topics, and observing the spaces allocated

		for privacy. The SADC has demonstrated compliance in all areas of the standard except for the following: the PCSP template did not list the members staff preferences for incontinence and toileting. Remediation will include updates to the SADC PCSP template to reflect the members choice in staff for incontinence and will be completed by 6/16/2023.
<p><i>42 CFR 441.301(c)(4)(iv)</i></p> <p>Partially Compliant</p>	<p>Optimizes, but does not regiment, individual initiative, autonomy, and independence in making life choices, including but not limited to, daily activities, physical environment, and with whom to interact.</p>	<p>DOH verified staffing ratios, programming, and recreational areas as well as any barriers to free movement, and those individualized activities are offered by reviewing staff schedules, member PCSPs, activity schedules, and through on-site observation. The SADC has demonstrated compliance in all areas of the standards except for the following: the members PCSPs do not include individualized activities, community integration opportunities, supports and/or modification offered for community integration. Remediation will include updates to the PCSP template to include individualized goals, a community integration section, staff preferences and supports and/or modifications for community activities and will be completed by 7/1/2024.</p>
<p><i>42 CFR 441.301(c)(4)(v)</i></p> <p>Compliant</p>	<p>Facilitates individual choice regarding services and supports, and who provides them.</p>	<p>DOH verified staff knowledge of members' needs and interests, as well as members' individual choice regarding their activities and supports, and the staff who provide them by evaluating member experience survey results, and reviewing SADC policies, and member handbooks, as well as through observation during the virtual on-site review.</p>

In settings where tenant laws do not apply, a lease, residency agreement or other written agreement is in place providing protections to address eviction processes and appeals comparable to those provided under the jurisdiction's landlord/tenant law.	SADC sites are non-residential, and therefore this standard is not applicable.
