Provider Compliance Summary

Requirements for All HCBS Settings		
Compliant?	Federal Requirement	Summary
<p><i>42 CFR 441.301(c)(4)(i)</i></p> <p>Partially Compliant</p>	<p>The setting is integrated in and supports full access of individuals receiving Medicaid HCBS to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.</p>	<p>DOH verified members have access to the greater community by confirming transportation options, support for volunteer/employment opportunities, staff resources, and that member preferences are accommodated by reviewing activity calendars, transportation schedules, daily sign-in/out sheets, and inclusion of preferences in member's PCSP. The SADC has demonstrated compliance in all areas of the standards except for the following: Activities listed in the</p>

		SADC PCSP did not indicate community integration and appeared to be limited to on-site activities. The SADC verbally confirmed the site provides community activities, volunteer and/or employment opportunities in a competitive setting however, the documentation and PCSPs submitted did not support these findings. Remediation has begun and is to be completed by 7/1/2024 to include the following: a community events calendar with off-site activities, and a community volunteer list and employment opportunities wall and a community outings logs for off-site activities. The SADC also made updates to the SADC PCSPs to include a section for group or individualized community integration activities opportunities.
<p><i>42 CFR 441.301(c)(4)(ii)</i></p> <p>Compliant</p>	The setting is selected by the individual from among setting options, including non-disability specific settings and an option for a private unit in a residential setting. The setting options are identified and documented in the person-centered service plan and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board.	The member must choose the SADC site prior to attending. This is done through the person-centered planning process, which is conducted by the MLTC plan. If it is determined the member qualifies and needs SADC, the MLTC plan care manager supplies a list of available SADC site options, and the member makes their selection of where they would like to attend and receive services. The MLTC plan care manager documents the need and the choice of SADC site in the MLTC plan PCSP.
<p><i>42 CFR 441.301(c)(4)(iii)</i></p> <p>Partially Compliant</p>	Ensures an individual's rights of privacy, dignity and respect, and freedom from coercion and restraint.	DOH verified members have privacy, are treated with respect and dignity, and are supported to choose their own schedules and activities based on their preferences by reviewing member PCSPs, SADC policy manuals, member experience surveys, staff training topics, and observing the spaces allocated

		for privacy. The SADC has demonstrated compliance in all areas of the standards except for the following: the members PCSP did not include members preference in which staff provides them with assistance for personal care services such as toileting. Remediation will include a revised PCSP to include a section for personal care and staff preferences and will be completed by 3/17/2023.
<p><i>42 CFR 441.301(c)(4)(iv)</i></p> <p>Partially Compliant</p>	<p>Optimizes, but does not regiment, individual initiative, autonomy, and independence in making life choices, including but not limited to, daily activities, physical environment, and with whom to interact.</p>	<p>DOH verified staffing ratios, programming, and recreational areas as well as any barriers to free movement, and those individualized activities are offered by reviewing staff schedules, member PCSPs, activity schedules, and through on-site observation. The SADC has demonstrated compliance in all areas of the standards except for the following: the service plan policy indicates the PCSP process is done "in conjunction with" the member. The HCBS Final Rule requires that the process is "driven" by the member, not that the PCSP be done only "in conjunction with" the member, and the process cannot be led by the SADC. The members PCSPs also did not include community integration opportunities, and supports offered for community integration. Remediation will include updates to PCPS policy language to ensure it is driven by the member and this will be completed by 3/17/2023.</p>
<p><i>42 CFR 441.301(c)(4)(v)</i></p> <p>Compliant</p>	<p>Facilitates individual choice regarding services and supports, and who provides them.</p>	<p>DOH verified staff knowledge of members' needs and interests, as well as members' individual choice regarding their activities and supports, and the staff who provide them by evaluating member experience survey results, and reviewing SADC</p>

		policies, and member handbooks, as well as through observation during the virtual on-site review.
