The SADC has demonstrated compliance in all areas of the standards except for the following: Members SADC PCSP</p>

This is done through the person-centered planning process, which is conducted by the MLTC plan. If it is determined the member qualifies and needs SADC, the MLTC plan care manager supplies a list of available SADC site options, and the member makes their selection of where they would like to attend and receive services. The MLTC plan care manager documents the need and the choice of SADC site in the MLTC plan PCSP.</p>

The SADC has demonstrated compliance in all areas of the standards except for the following: Members SADC PCSP does not show community inclusion, goals, supports etc. According to the Participant's Rights document, the member only has the right to "participate" in the PCSP process rather than "lead" it. Remediation efforts will be concluded by 3/17/2023 and include the participant rights and updates to the PCSP to include individualized activities, community goals and supports.
