Overview

The FY 2016 Enacted Budget extended the Medicaid Global Spending Cap through March 2017. Pursuant to legislation, the Medicaid Global Spending Cap has increased from \$17.0 billion in FY 2015 to \$17.7 billion (including the Basic Health Program) in FY 2016, an increase of 4.6 percent. The CPI used on Medicaid services subject to the trend was 3.6 percent (ten year average of the Medical Care Consumer Price Index); however, there were several adjustments made to the Global Cap target that were not subject to the trend, the most significant of which was the inclusion of OHIP State Operations cost. The annual growth in the Global Cap of \$779 million over last year includes costs associated with both price and enrollment increases, offset by a net change in one time revenue and spending actions as well as the continuation of Medicaid Redesign Team (MRT) initiatives. Components of the annual growth are as follows:

Price (+\$488 million)	Price includes an increase in managed care premiums for cost trends and newly covered benefits, as well as fee-for-service rate adjustments. <i>See Appendix B for more detail.</i>
Utilization (+\$356 million)	Utilization reflects the annualization of FY 2015 net enrollment growth (516,000 recipients) as well as assumed new enrollment for FY 2016, including the additional enrollment under the NY State of Health (NYSoH) / Healthcare Exchange.
MRT/One-Timers/Other (-\$65 million)	MRT/Other primarily includes Basic Health Plan savings (\$945 million) and Federal Revenue as a result of the Affordable Care Act (\$294 million) <i>offset by</i> new investments (\$778 million), Financial Plan Relief (\$200 million) and loss of one-time Federal revenue (\$227 million).

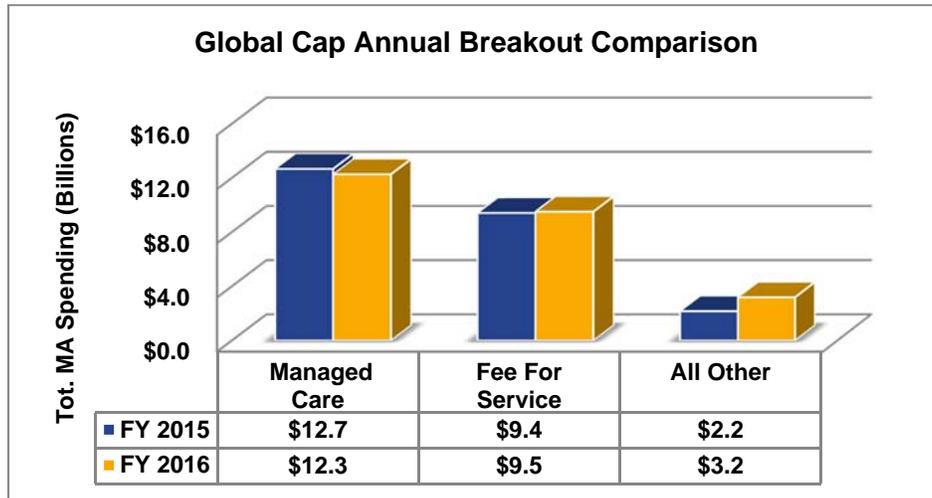

Additionally, as part of the legislation passed with the Enacted Budget, the following major initiatives were included in the Medicaid program:

- The *Basic Health Plan (BHP)*, which will be implemented in a two-phase approach. Phase I, effective April 1, 2015, transitioned certain Medicaid immigrants into the BHP while remaining in their respective plans. Phase II, effective November 1, 2015, transitions eligible enrollees from the Marketplace into BHP for coverage effective January 1, 2016;
- Additional resources for the *Vital Access Provider/Safety Net Program*, including single public Performing Provider Systems (PPS); and
- \$85 million for Hospital Quality and Essential/Rural Community Provider investments, \$20 million in Alzheimer's caregiver support, and \$5 million for the Governor's End of AIDS initiative.

Through the first four years of the Global Spending Cap, Medicaid spending has remained within the Global Cap while expanding health coverage to the State's neediest populations. Through the collaboration of the MRT and the health care network, major steps towards redesigning the State's Medicaid program and reducing its costs have been made.

Components of the Medicaid Global Spending Cap

The Global Cap is comprised of spending for Managed Care plans (mainstream and long term), fee-for-service categories (hospitals, nursing homes, clinics, other long term care providers, and non-institutional related costs), and other areas of spending (i.e., Medicaid administration, OHIP budget, VAP payments, transfers from other State agencies, etc.). This spending is offset by local government funding as well as Medicaid audit recoveries and accounts receivable recoupments. See Appendix A for the annual budget by category of service.

NOTE: The chart represents the actual non-federal share of Medicaid spending for FY 2015 and the projected share for FY 2016. The Local contributions are \$7.2 billion in FY 2016, which is used to offset the amounts reflected above.

Results for April 2015 - Summary

Total State Medicaid expenditures under the Medicaid Global Spending Cap for FY 2016 during April were \$23 million, or 1.4 percent, under projections. Spending for the month of April resulted in total expenditures of \$1.649 billion compared to the projection of \$1.672 billion.

Medicaid Spending – FY 2016 (dollars in millions)			
Category of Service	Estimated	Actual	Variance Over / (Under)

Results through April - Variance Highlights

Medicaid Managed Care

Medicaid spending in major Managed Care categories was on target with estimates.

Fee-For-Service

Medicaid spending in major fee-for-service categories was \$38 million, or 4.9 percent, below projections.

- Inpatient spending was \$15 million over projections which appear to be driven by higher than expected service claims.
- Other Long Term Care spending was \$6 million above estimates as a result of more recipients billed than anticipated in personal care, 5.5 percent.
- Non-Institutional spending (includes Pharmacy, Medical Supplies, Physicians, Supplemental Medical Insurance, etc.) was \$47 million under projections. Total rebates collected for the month of April exceeded projection by more than 20 percent which appears to be related to the timing of collections.

Medicaid Audits

For April, spending offsets from Medicaid audit recoveries were below projected levels by \$2 million. The majority of this spending variance is associated with the timing of deposits. As such, the variance should not be considered a factor contributing to overspending the annual global cap amount.

Office of Health Insurance Programs (OHIP) State Operations Budget

The OHIP State Operations budget reflects the Non-Federal share only of personal services (i.e., salaries of OHIP staff that work on the Medicaid budget) and non-personal services costs (i.e., contractual services). The FY 2016 budget is projected to total \$248 million. The annual increase is offset by funding certain New York State of Health (NYSOH) Exchange operations.

Contracts for the Enrollment Center, Medicaid Management Information Systems (MMIS), NYSOH Exchange, transportation management, and various MRT initiatives comprise 65 percent (\$139 million) of the total non-personal service budget. The chart below compares State Operations spending against the annual budget for FY 2015:

OHIP Budget – FY 2016 (dollars in millions)		
Service Costs	Annual Budget	Actual - YTD
Personal Services	\$35	\$2
Non-Personal Services	\$213	\$6
NYS Of Health Healthcare Exchange	\$66	\$0
Enrollment Center	\$28	\$1
Medicaid Transportation Management	\$23	\$0
eMedNY (MMIS)	\$15	\$3
OHIP Actuarial and Consulting Services	\$7	\$0
All Others	\$74	\$2
TOTAL	\$248	\$8

Accounts Receivable

The Accounts Receivable (A/R) ending balance for FY 2015 was \$280 million. The State is expected to recoup \$170 million by the end of FY 2016, resulting in a projected A/R balance of \$110 million by March 2016. Through the end of April, retroactive rates owed to the State were \$240 million. This reflects a decrease of \$40 million since March 2015.

The Department of Health is engaged in an initiative to eliminate all currently outstanding retroactive rates Medicaid liabilities owed to the State, no later than March 31, 2017. These liabilities pose a potential risk to the Medicaid Global Spending Cap. It is therefore important that the Department take these necessary steps to ensure the solvency of the Global Cap and protect the integrity of the Medicaid program. All retroactive rate liabilities processed on August 1, 2015, and forward, which cannot be fully paid within twelve months using the standard fifteen percent Medicaid recoupment percentage, will be adjusted to a higher recoupment rate to ensure that these liabilities will be paid within twelve months from the date of the first recoupment.

Medicaid Enrollment

Medicaid total enrollment reached 6,197,958 enrollees at the end of April 2015. This reflects an increase of 23,993 enrollees, or 0.4 percent, since March 2015. Below is a detailed breakout by program and region:

Medicaid Enrollment Summary FY 2016			
	March 2015	April 2015	Increase / (Decrease)
Managed Care	4,673,939	4,704,353	30,414

Rest of State	2,559,045	2,567,894	8,849

Beneficiary Transition Schedule to Managed Care

Care Management for All was a key component of the MRT's recommendations intended to improve benefit coordination, quality of care, and patient outcomes over the full range of health care, including mental health, substance abuse, developmental disability, and physical health care services. It will also redirect almost all Medicaid spending in the State from fee-for-service to care management. The care management system currently in place includes comprehensive plans, HIV/AIDS special needs plans, partial capitation long term care plans, and Medicare/Medicaid supplemental plans. As Care Management for All progresses, additional plans tailored to meet the needs of the transitioning population will be added, including mental health and substance abuse special needs plans, as well as fully integrated plans for Medicare/Medicaid "dual eligibles". The chart below outlines the list of recipients schedule to transition into the care management setting during FY 2016:

Medicaid Fee for Service Transition to Managed Care (Populations) FY 2016					
Effective Date	Populations	From (COS)	To (COS)	# of Targeted Enrollees	FY 2016 Enrolled
February 2015	Nursing Home – New York City	NH	MMC / MLTC	6,641	
October 2015	BHO / HARPs	Various	MMC	56,121	

Appendix A

Medicaid Global Spending Cap Annual Budget (Online and Offline)

The \$17.7 billion Medicaid State Funds Spending Cap can be organized into two major components: (1) health care provider reimbursement and (2) other administrative, intergovernmental or revenue lines, also referred to as “offline” or occurring outside the MMIS billing system. Health care provider spending reflects the cost of care that is attributable to certain service sectors of the program (i.e., hospital, nursing home, managed care, etc.). These payments occur within the Medicaid claiming system (eMedNY). Projections for most service sectors begin with FY 2015 ending recipients and average rates per recipient. Adjustments to spending projections are then made for anticipated rate packages, transitions of populations/benefits to the Managed Care setting, and any non-recurring or one-time payments. Monitoring the movement of recipients between fee-for-service reimbursement and monthly Managed Care rates of payment is critical to evaluating various health service budgets.

The second component of spending, spending outside the eMedNY billing system, reflects spending on intergovernmental transfer payments, State and Local District Social Service administrative claims, etc., as well as receipts that offset the State’s cost for Medicaid, i.e., drug manufacturer rebates and accounts receivable collections. The following table outlines the annual Medicaid projections by major health care sector for both provider claims and other payments/revenues.

Appendix C

Savings Initiatives

As part of the FY 2016 Enacted Budget the following major initiatives are scheduled to be implemented in this fiscal year:

Dollars in Millions (Non-Federal Share)	FY 2016
Accelerate Rebate Collections	(\$26.8)
Cost-sharing Limits to Medicare Part B Claims	(\$24.9)
Rebase CHHAs	(\$25.0)
Implement Managed Care Pharmacy Efficiencies	(\$13.4)
Statewide Supplemental Rebates	(\$13.3)
Savings Initiatives	(\$103.4)

Appendix D Grant Award Programs

Vital Access/Safety Net Provider Program

The Vital Access/Safety Net Provider Program (VAP) supports projects for facilities that were selected due to their serious financial condition and critical role in providing services to New York State's fragile, elderly, and low-income population. These awards support multi-year projects submitted by hospitals, nursing homes, free standing clinics, and home health providers. The VAP funds will be used primarily to improve community care including expand access to ambulatory services, open urgent care centers, expand services in rural areas, and provide more effective services that meet community needs.

VAP Program Awards (dollars in millions; state share)				
Provider Type	Total Amount Awarded	FY 2014 Disbursed	FY 2015 Disbursed	FY 2016 Actual - YTD
Hospitals	\$118	\$18	\$52	\$2
Diagnostic & Treatment Centers	\$18	\$0	\$12	\$1
Nursing Homes	\$121	\$7	\$34	\$0
Critical Access Hospitals	\$16	\$0	\$5	\$0
Certified Health Home Agencies	\$3	\$0	\$2	\$0
TOTAL	\$275	\$25	\$105	\$3

Supportive Housing

The Supportive Housing Initiative seeks to ensure that Medicaid members have proper housing that promotes a healthy environment and lifestyle.

Supportive Housing Allocation Plan – FY 2016 (dollars in millions)	
	Allocation Plan
Capital Funding	\$63
Rental/Service Subsidies	\$33
New Supportive Housing Pilot Projects	\$26
Tracking & Evaluation	\$1

Regional Spending Data

The Global Cap legislation requires the Department to publish actual State Medicaid spending by region. The regions selected are based on the Governor's eleven economic development areas. The chart below represents total provider spending that occurs within the Medicaid claiming system (eMedNY) through April 2015 for each region.

Medicaid Regional Spending – FY 2016 (dollars in millions)	
Economic Region	Non-Federal Total Paid
New York City	\$1,369
Long Island	\$225
Mid-Hudson	\$212
Western	\$109
Finger Lakes	\$92
Capital District	\$77
Central	\$54
Mohawk Valley	\$46
Southern Tier	\$41
North Country	\$32
Out of State	\$13
TOTAL	\$2,270
