The Whole is Greater than the Sum of Its Parts:
A True Collaboration Story

Once Upon a Time in a Far off Land...

Long Island, NY
A collaboration of agencies joined....
Each had the same objective...
Each had its own challenges and expertise...
The partners convened many, many, *many* times. The membership grew and grew and grew, reaching from one end of the island to the other.
The partners planned their plan

Collective Impact Framework

- **Common Agenda**
  - Keeps all parties moving towards the same goal

- **Common Progress Measures**
  - Measures that get to the TRUE outcome

- **Mutually Reinforcing Activities**
  - Each expertise is leveraged as part of the overall

- **Communications**
  - This allows a culture of collaboration

- **Backbone Organization**
  - Takes on the role of managing collaboration

Strategic Plan
Together, the collaborative built a new home for all of their ideas and shared it with the community.
Brainstorming and talents were shared among the group. New ideas were born.

Complete Streets

Recommendation for Walking
Programs and interventions assessed and evaluated. Tools honed and data selected.

What does the community say?

How do we get the word out?

Many types of data, but what are our objectives?

How do we assess chronic disease programs?
On a special day in February, the town crier cried, “Hear ye, Hear ye! What are your priorities”
The partners found successes…

Nassau Event: Percentage of Participants who would be interested in attending a follow-up event

PHIP
Together, we hold the keys to our own success.
And each partner continues to attend each and every meeting, deliberating, developing and determining new ways to improve the health of the collective community.

And they all live happily, ever after....

The End
