New York State Vaping-Related Illness Investigation
Summary of case data reported to NYS Department of Health through February 25, 2020

Reports of Vaping-Related Illness

Investigation Status

Confirmed and Probable Cases are classified based upon the Centers for Disease Control and Prevention case definition. The definitions are meant for surveillance and not clinical diagnosis. Due to the ongoing and evolving nature of the outbreak, an individual case's classification status may change.

Out of State Cases reside out of state but were treated at hospitals in NYS.

Case Criteria Not Met Available information indicated that the case did not meet CDC's current case definition.

Total reported cases= 249

Out of State 9
Case Criteria Not Met 39
Under Investigation 26
