GENERAL INFORMATION REGARDING
REGENTS-DESIGNATED SERVICE SHORTAGE AREAS (RPSAs),
COUNTIES, AND CENSUS TRACTS
IN NEW YORK STATE

How to use the Regents Physician Shortage Area (RPSA) Listing

Primary Care Regents Physician Shortage Areas by County: This section, one of several within the book applicable for primary care physicians, is applicable to primary care physicians only, and lists shortage areas by Service Area, Population Group, and Facility within the indicated county.

Examples: To be eligible for any program for which Regents shortage areas pertain:

1. A primary care physician working in Bronx County (Borough) and practicing in the Morris Heights area would have to be working in a census tract (C.T.) (e.g., 53.02, 205, 215.01, etc.) listed in this section. To identify the C.T. of a practice site address, you can go to the following website: http://www.ffiec.gov/geocode/default.htm. Enter the address of the site. Click on “search” and note the “Tract Code.” If the address is located in an underserved area, the C.T. number will be listed in one of the Service Areas or Population Groups in the appropriate county.

2. A primary care physician working in Clinton County would have to work within the Service Area of Dannemora in the town of Dannemora or Saranac or provide services to a Low-Income population group in the Malone area in the town of Altona, Clinton or Ellenburg.

3. A primary care physician would have to work in listed facilities (e.g., Metropolitan Correctional Center in New York county), which are applicable for primary care physicians only, as indicated within the appropriate counties.

Facilities Eligible for Primary Care and Mental Health Shortage Area Designation by County: This section lists individual facilities, by county, applicable for either primary care or mental health physicians.

NY State Operated Facilities Designated as Regents Physician Shortage Areas for Primary Care Physicians and Psychiatrists: This section lists New York State facilities applicable for either primary care physicians or psychiatrists.

Additional Facilities Designated as Primary and Non-Primary Care Shortage Areas for Service to a Special Population: This section is applicable to both primary and non-primary care physicians. Physicians who were recipients of the Regents Health Care Scholarship and are practicing in a specialty may apply services provided to
indicated populations at specified facilities in this section as part, or all of, their service obligation.

**Non-Primary Care Shortage Areas by County:** This section is applicable only to non-primary (specialist) physicians who seek approval for limited New York State medical licenses and those who have incurred, and seek to repay, obligated service under the New York State Regents Health Care Scholarships in Medicine.

**Hospitals Eligible for Primary Care and Non-Primary Care Shortage Area Designation:** This section is applicable to both primary and non-primary (specialist) physicians who seek approval for limited New York State medical licenses and those who have incurred, and seek to repay, obligated service under the New York State Regents Health Care Scholarships in Medicine or the New York State Regents Physician Loan Forgiveness Award Program.

**Regents Psychiatric Shortage Areas:** This section is applicable to psychiatrists who seek approval for limited New York State medical licenses and those who have incurred, and seek to repay, obligated service under the New York State Regents Health Care Scholarships in Medicine or the New York State Regents Physician Loan Forgiveness Award Program

**NOTE TO PRIMARY CARE PRACTITIONERS AND PROVIDERS**

The National Health Service Corps loan repayment program is available to primary care physicians, nurse practitioners, physician assistants and midwives interested in serving in federally designated underserved communities in New York State. For more information about the National Health Service Corps, call 1-800-221-9393, or visit the following website:
