

CARDIAC ARREST MANAGEMENT AED

INSTRUCTIONS TO THE CANDIDATE

This station is designed to test your ability to manage a prehospital cardiac arrest by integrating CPR skills, defibrillation, airway adjuncts and patient/scene management skills. There will be an EMT assistant in this station. The EMT assistant will only do as you instruct. As you arrive on the scene you find a patient on the floor. You must immediately establish control of the scene and care of the patient. At the appropriate time, the patient's airway must be controlled and you must ventilate or direct the ventilation of the patient using adjunctive equipment. You may use any of the supplies available in this room. You have 15 minutes to complete this skill station. Do you have any questions?

	Points:	Possible	Awarded	Comments
ASSESSMENT & INITIAL TREATMENT	Takes or verbalizes, body substance isolation precautions	C		
	Appropriately assess patient and confirms no pulse	1		
	Directs rescuer to begin single rescuer CPR	1		
	Assures adequate CPR and adequate (visible) chest rise during ventilations	1		
	Properly attaches AED pads in the correct locations	1		
	Turns on AED	1		
	Directs rescuer to stop CPR	1		
	Ensures all individuals are clear of the patient	C		
	Initiates analysis of the patient's rhythm	1		
	Delivers one (1) shock	C		
INTEGRATION	TRANSITION	1		
	Immediately begins 2 rescuer CPR without performing a pulse check (candidate must be performing ventilations)(continues for 2 full minutes)			
	Assures adequate CPR and adequate (visible) chest rise during ventilations	1		
	Verbalizes insertion of a simple airway adjunct (oral/nasal airway)	1		
	Assures high concentration of oxygen is delivered to the patient	1		
	Assures CPR continues without unnecessary/prolonged interruption during the 2 minutes	1		
	Directs rescuer to stop CPR	1		
	Ensures all individuals are clear of the patient	C		
	Initiates analysis of the patient's rhythm	1		
	Delivers one (1) shock	C		
Immediately begins 2 rescuer CPR without performing a pulse check (candidate should be performing ventilations)				
Verbalizes transportation of patient	1			
Candidate did not initiate first shock within 90 seconds of arrival	C			
Candidate did not initiate/resume CPR at appropriate times	C			
Candidate operated the AED improperly or unsafely	C			
Stops compressions to attach AED	C			
Candidate failed to assure appropriate compression-to-ventilation ratios	C			
Candidate failed to complete station within 15 minute time limit	C			
Note: Candidate must complete all critical criteria and receive at least 12 points to pass this station.	15			

Total to pass: 12

COMMENTS:

BLEEDING CONTROL/SHOCK MANAGEMENT

INSTRUCTIONS TO THE CANDIDATE

This station is designed to test your ability to control hemorrhage. This is a scenario-based testing station. As you progress through the scenario, you will be given various signs and symptoms appropriate for the patient's condition. You will be required to manage the patient based on these signs and symptoms. A scenario will be read aloud to you and you will be given an opportunity to ask clarifying questions about the scenario, however, you will not receive answers to any questions about the actual steps of the procedures to be performed. You may use any of the supplies and equipment available in this room. You have five minutes to complete this skill station. Do you have any questions?

Points:	Possible	Awarded	Comments
Takes, or verbalizes, body substance isolation precautions	C		
Applies direct pressure to the wound	1		
Note: The examiner must now inform the candidate that the wound continues to bleed.			
Applies a pressure dressing to the wound	1		
Note: The examiner must now inform the candidate that the wound still continues to bleed.			
Applies a tourniquet	1		
Note: The examiner must now inform the candidate that the bleeding is Controlled, but the patient is showing signs and symptoms indicative of hypoperfusion.			
Properly positions the patient	1		
Applies high concentration oxygen	C		
Initiates steps to prevent heat loss from the patient	1		
Indicates the need for immediate transportation	1		
Candidate failed to control hemorrhage appropriately	C		
Candidate applied a tourniquet before attempting other methods of bleeding control.	C		
Candidate did not complete the station within the 5 minute time limit	C		
Note: Candidate must complete all critical criteria and receive at least 6 points to pass this station.	6
