

## Chapter 450 of the Laws of 2016

### Text of the Law

Section 1. Section 2803 of the public health law is amended by adding a new subdivision 11 to read as follows:

11. Notwithstanding any provision of this article, or any rule or regulation under this article to the contrary, the commissioner shall allow outpatient clinics of general hospitals and diagnostic and treatment centers to provide off-site primary care services that are:

(a) primary care services ordinarily provided to patients on-site at the outpatient clinic or diagnostic and treatment center and are not home care services defined in subdivision one of section thirty-six hundred two of this chapter or the professional services enumerated in subdivision two of such section;

(b) provided by a primary care professional to a patient with a pre-existing clinical relationship with the outpatient clinic or diagnosis and treatment center, or with the health care professional providing the service; and

(c) provided to a patient who is unable to leave his or her residence to receive services at the outpatient clinic or diagnostic and treatment center without unreasonable difficulty due to circumstances, including but not limited to, clinical impairment.

Nothing in this subdivision shall preclude a federally qualified health center from providing off-site services in accordance with department regulations.

§ 2. This act shall take effect on the one hundred twentieth day after it shall have become a law, provided: that effective immediately the commissioner of health may make regulations and take other actions necessary to implement this act on that date; and any state regulations or guidance which may be issued for the implementation of this act shall be developed in consultation with representatives of outpatient clinics of general hospitals, diagnostic and treatment centers, home care services agencies, and statewide associations representing such providers.
