Other Tips

• Use a one-piece sleeper. Don’t use blankets.
• Be sure baby is not too warm.
• Breastfeed your baby.
• Try using a pacifier for sleep but don’t force baby to take it.
• Get your baby immunized.
• If your baby is in a front or back baby carrier, be sure that baby’s face is always visible.
• Never use a car seat, baby swing, carriage or other carrier without properly fastening all the straps. Babies have been caught in partially fastened straps and died.
• Make sure no one smokes in your home or around your baby.
• Don’t use alcohol or drugs.
• Don’t rely on home baby monitors.

Follow the ABCs of Safe Sleep

Make sure everyone caring for your baby follows these tips!

health.ny.gov/safesleep

A

Alone.

Baby should sleep Alone.

B

Back.

Put baby on their Back.

C

Crib.

Put baby in a safe Crib.
About 90 babies die each year in New York State from sleep-related causes. Right from the start, help your baby sleep safely every time sleep begins.

**ALONE**

- Put baby on their back to sleep – even if baby was born early (premature).

- Your baby should not sleep with adults or other children.

- Share your room, not your bed. Room-sharing lets you keep a close watch over your baby while preventing accidents that might happen when baby is sleeping in an adult bed.

- Nothing should be in the crib except baby; no pillows, bumper pads, blankets or toys.

**Crib.**

- If baby falls asleep on a bed, couch, armchair, or in a sling, swing or other carrier, put baby in a crib to finish sleeping.

- Use a safety-approved* crib/bassinet/play yard with a firm mattress and a fitted sheet.

- DO NOT USE A DROP-SIDE CRIB. Federal safety standards do not allow drop-side rail cribs to be made or sold.

- Before you buy or use any crib/bassinet/play yard check the CPSC recall list at: www.cpsc.gov/Recalls/ to make sure it has not been recalled.

**BACK**

- Put baby to sleep on their back, not on their tummy or side.

- Put your baby on their tummy every day when baby is awake. Watch and encourage your baby. “Tummy time” helps baby develop strong shoulder and neck muscles.
