

# New Baby? Think Safety!

## Car Seat Check List

- Buy and install a federally approved rear-facing car seat at least three weeks before your baby's due date. Make sure the car seat is properly installed in the back seat of the car by following the car seat manufacturer's instructions and the vehicle owner's manual.
  
- Meet with a certified Child Passenger Safety Technician at least three weeks before your baby's due date if you need help installing your car seat. Go to [safeny.ny.gov](http://safeny.ny.gov) for a list of car seat fitting stations and check-up events in your area.
  
- Bring your newborn baby safely home.
