

**YES**

# Say **yes** to the HIV test.

Everyone ages 13–64 will be **offered** the HIV test.

HIV can be spread through unprotected sex, sharing needles, childbirth or by breastfeeding.

Treatments for HIV/AIDS can help you stay healthy longer.

People living with HIV/AIDS can use safe practices to protect others from becoming infected.

Testing is voluntary and can be done at a public testing center without giving your name.

By law, HIV test results are kept confidential (private).

Discrimination based on a person's HIV status is illegal.

Consent for HIV-related testing remains in effect until it is withdrawn verbally or in writing.

You may withdraw your consent at any time.

# We're **asking** everyone. It's the law.
