Due to other system priorities and the small number of children who would not meet one of the 13 exceptions to the waiting period that are programmed into NY State of Health, New York's Health Plan Marketplace, the waiting period has not been removed from the system. Children who do not meet one of the exceptions are manually removed from the waiting period and their enrollment is processed without a waiting period. A monthly report is run to capture children who are found in the waiting period and their determination is manually overridden in the NY State of Health so the child has access to coverage in accordance with current processing rules.
