1905(a)(1) Inpatient Hospital Services

Additional Inpatient Governmental Hospital Payments

For the period beginning state fiscal year April 1, 2021, and ending March 31, 2022, the State will provide a supplemental payment for all inpatient services provided by eligible government general hospitals located in a city with a population over one million and not operated by the State of New York or the State University of New York. The amount of the supplemental payment will be \$366,904,599 and paid semi-annually in September and March. It will be distributed to hospitals proportionately using each hospital's proportionate share of total Medicaid days reported for the base year two years prior to the rate year. Such payments, aggregated with other medical assistance payments will not exceed 100% of a reasonable estimate of the amount that would be paid for such services under Medicare payment principles for non-state government owned or operated government general hospitals for the respective period.
