New York, New York 10278

RE: SPA #13-34
Non-Institutional Services

Dear Mr. Melendez:

The State requests approval of the enclosed amendment #13-34 to the Title XIX (Medicaid) State Plan for non-institutional services to be effective April 1, 2013 (Appendix I). This amendment is being submitted based on enacted legislation. A summary of the plan amendment is provided in Appendix II.

The State of New York reimburses these services through the use of rates that are consistent with and promote efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area as required by §1902(a)(30) of the Social Security Act and 42 CFR §447.204.

Copies of pertinent sections of enacted State statute are enclosed for your information (Appendix III). A copy of the public notice of this plan amendment, which was given in the New York State Register on March 27, 2013, is also enclosed for your information (Appendix IV). In addition, responses to the five standard funding questions are also enclosed (Appendix V).

If you have any questions regarding this State Plan submission, please do not hesitate to contact John E. Ulberg, Jr., Medicaid Chief Financial Officer, Division of Finance and Rate Setting at (518) 474-6350.

Sincerely,

Jason A. Helgerson
Medicaid Director
Office of Health Insurance Programs

2013 Title XIX State Plan
Second Quarter Amendment
Non-Institutional Services
Amended SPA Pages

New York
4 (a)(vii)

The Commissioner of Health is authorized to require group health insurance plans and employer based group health plans to report to the Department, insofar as such reporting does not violate any provisions the Federal Employee Retirement Income Security Act (ERISA), at such times and in such manner as the Commissioner shall decide, any information needed including but not limited to, the number of people in such plans who become ineligible each month for the continuation coverage described herein. In addition, every certified health maintenance organization and every insurer licensed by the Superintendent of Insurance shall submit reports in such form and at such times as may be required.

Recruitment And Retention

The Commissioner shall adjust medical assistance rates of payment for services provided by certified home health agencies (CHHA) for such services provided to children under 18 years of age and for services provided to a special needs population of medically complex and fragile children, adolescents and young disabled adults by a CHHA operating under a pilot program approved by the Department, for purposes of improving recruitment and retention of non-supervisory home care services workers or any worker with direct patient care responsibility in the following amounts for services provided on and after December 1, 2002.

Rates of payment by governmental agencies for certified home health agency services (including services provided through contracts with licensed home care services agencies) shall be increased by three percent.

Providers, which have their rates adjusted for this purpose shall use such funds solely for the recruitment and retention of non-supervisory home care services workers or any worker with direct patient care responsibility. Providers are prohibited from using such funds for any other purpose.

The Commissioner is authorized to audit each provider to ensure compliance with this purpose and shall recoup any funds determined to have been used for purposes other than recruitment and retention of non-supervisory home care services workers or any worker with direct patient care responsibility.

In the case of services provided by providers through contracts with licensed home care services agencies, rate increases received by providers shall be reflected in either the fees paid or benefits or other supports provided to non-supervisory home care services workers or any worker with direct patient care responsibility of such contracted licensed home care services agencies and such fees, benefits or other supports shall be proportionate to the contracted volume of services attributable to each contracted agency. Such agencies shall submit to providers with which they contract written certifications attesting that such funds will be used solely for the purposes of recruitment and retention of non-supervisory home care services workers or any worker with direct patient care responsibility and shall maintain in their files expenditure plans specifying how such funds will be used for such purposes. The Commissioner is authorized to audit such agencies to ensure compliance with such certifications and expenditure plans and shall recoup any funds determined to have been used for purposes other than those set forth in this section.

Summary

SUMMARY
SPA #13-34

This State Plan Amendment proposes to eliminate the provider attestation requirement for recruitment and retention for certified home health agencies (CHHA) funding due to the movement of such agencies into managed care. However, attestation remains intact for the other fee-for-service provider categories.

Appendix III
2013 Title XIX State Plan
Second Quarter Amendment

Authorizing Provisions

CHAPTER 56 OF THE LAWS OF 2013 - PART A

§ 55. Paragraph (a) of subdivision 8 of section 3614 of the public health law, as added by section 54 of part J of chapter 82 of the laws of 2002, is amended to read as follows:

(a) Notwithstanding any inconsistent provision of law, rule or regulation and subject to the provisions of paragraph (b) of this subdivision and to the availability of federal financial participation, the commissioner shall adjust medical assistance rates of payment for services provided by certified home health agencies **for such services provided to children under eighteen years of age and for services provided to a special needs population of medically complex and fragile children, adolescents and young disabled adults by a CHHA operating under a pilot program approved by the department**, long term home health care programs and AIDS home care programs in accordance with this paragraph and paragraph (b) of this subdivision for purposes of improving recruitment and retention of non-supervisory home care services workers or any worker with direct patient care responsibility in the following amounts for services provided on and after December first, two thousand two.

(i) rates of payment by governmental agencies for certified home health agency services **for such services provided to children under eighteen years of age and for services provided to a special needs population of medically complex and fragile children, adolescents and young disabled adults by a CHHA operating under a pilot program approved by the department** (including services provided through contracts with licensed home care services agencies) shall be increased by three percent;

(ii) rates of payment by governmental agencies for long term home health care program services (including services provided through contracts with licensed home care services agencies) shall be increased by three percent; and

(iii) rates of payment by governmental agencies for AIDS home care programs (including services provided through contracts with licensed home care services agencies) shall be increased by three percent.

§ 56. The opening paragraph of subdivision 9 of section 3614 of the public health law, as amended by section 5 of part C of chapter 109 of the laws of 2006, is amended to read as follows:

Notwithstanding any law to the contrary, the commissioner shall, subject to the availability of federal financial participation, adjust medical assistance rates of payment for certified home health agencies **for such services provided to children under eighteen years of age and for services provided to a special needs population of medically complex and fragile children, adolescents and young disabled adults by a CHHA operating under a pilot program approved by the department**, long term home health care programs, AIDS home care programs established pursuant to this article, hospice programs established under article forty of this chapter and for managed long term care plans and approved managed long term care operating demonstrations as defined in section forty-four hundred three-f of this chapter. Such adjustments shall be for purposes of improving recruitment, training and retention of home health aides or other personnel with direct patient care responsibility in the following aggregate amounts for the following periods:

§ 57. Paragraph (a) of subdivision 10 of section 3614 of the public health law, as amended by section 24 of part C of chapter 59 of the laws of 2011, is amended to read as follows:

(a) Such adjustments to rates of payments shall be allocated proportionally based on each certified home health [~~agency's~~] agency, long term home health care program, AIDS home care and hospice program's home health aide or other direct care services total annual hours of service provided to medicaid patients, as reported in each such agency's most recently available cost report as submitted to the department or for the purpose of the managed long term care program a suitable proxy developed by the department in consultation with the interested parties. Payments made pursuant to this section shall not be subject to subsequent adjustment or reconciliation; provided that such adjustments to rates of payments to certified home health agencies shall only be for that portion of services provided to children under eighteen years of age and for services provided to a special needs population of medically complex and fragile children, adolescents and young disabled adults by a CHHA operating under a pilot program approved by the department.

Appendix IV
2013 Title XIX State Plan
Second Quarter Amendment
Non-Institutional Services
Public Notice

• Continues, effective April 1, 2013 through March 31, 2015, budgeted capital inpatient costs of a general hospital applicable to the rate year shall be decreased to reflect the percentage amount by which the budgeted costs for capital related inpatient costs of the hospital for the base year two years prior to the rate year exceeded actual costs.

The annual decrease in gross Medicaid expenditures attributable to these initiatives for state fiscal year 2013/14 is $114.5 million.

• Effective April 1, 2013, rates of payments for general hospitals certified by the Office of Alcoholism and Substance Abuse Services who provide inpatient detoxification and withdrawal services and, for inpatient services provided for patients discharged on and after December 1, 2008, and who are determined to be in diagnosis-related groups as identified and published on the New York State Department of Health website will be made on a per diem basis. Such payments will be made in accordance with existing methodology previously noticed on June 10, 2009.

• The base period reported costs and statistics used for case based rate-setting operating cost components, including the weights assigned to diagnostic related groups, will be updated no less frequently than every four years and the new base period will be no more than four years prior to the first applicable rate period that utilizes such new base period provided, however, that the first updated base period shall begin on January 1, 2014.

• Effective January 1, 2014, the payment rates for hospital DRG exempt services may be adjusted periodically to reflect a more current cost and statistical base year including adjustments deemed necessary by the Commissioner.

• Effective January 1, 2014, hospital inpatient payment rates may be adjusted to include changes to the base year statistics and costs used to determine the direct and indirect graduate medical education components of the rates as a result of new teaching programs at new teaching hospitals and/or as a result of residents displace and transferred as a result of a teaching hospital closure.

• Continues, effective January 1, 2014, the current methodology established to incorporate quality related measures, including, but not limited to potentially preventable re-admissions (PPRs) and provide for rate adjustments or payment disallowances related to PPRs and other potentially preventable negative outcomes (PPNOs), shall be calculated in accordance with the existing methodology.

- Such methodology will be based on a risk adjusted comparison of the actual and the expected number of PPRs and other PPNOs in a given hospital and with benchmarks established by the Commissioner.

- Such rate adjustments or payment disallowances will result in an aggregate reduction in Medicaid payments of no less than $51 million for the period April 1, 2013 through March 31, 2014.

- Such aggregate reductions shall be offset by Medicaid payment reductions occurring as a result of decreased PPRs during the period April 1, 2013 through March 31, 2014 and as a result of decreased PPNOs during the period April 1, 2013 through March 31, 2014. Such rate adjustments or payment disallowances will not apply to behavioral health PPRs or to readmissions that occur on or after 15 days following an initial admission.

Long Term Care Services

• Continues, effective for periods April 1, 2013 through March 31, 2015, the total reimbursable state assessment on each residential health care facility's gross receipts received from all patient care services and other operating income on a cash basis for inpatient or health-related services, including adult day service, but excluding gross receipts attributable to payments received pursuant to Title XVIII of the federal Social Security Act (Medicare), at six percent. The extent to which a facility is reimbursed for the additional cost of the assessment is dependent upon Medicaid volume of services.

The annual increase in gross Medicaid expenditures attributable to these initiatives for state fiscal year 2013/14 is $420 million.

• Continues, effective April 1, 2013 through March 31, 2015, the provision that rates of payment for RHCFs shall not reflect trend factor projections or adjustments for the period April 1, 1996 through March 31, 1997.

• Extends current provisions to services April 1, 2013 through March 31, 2015, the reimbursable operating cost component for RHCFs rates will be established with the final 2006 trend factor equal to the final Consumer Price Index (CPI) for all urban consumers less 0.25%.

Continues, effective April 1, 2013 through March 31, 2015, long-term care Medicare maximization initiatives.

The annual decrease in gross Medicaid expenditures attributable to these initiatives for state fiscal year 2013/14 is $117 million.

• Extends the provision, cost reports submitted by facilities for the 2002 calendar year or any subsequent year used to determine the operating component of the 2009 rate will be subject to audit through December 31, 2018. Facilities will therefore retain all fiscal and statistical records relevant to such cost reports. Any audit of the 2002 cost report, which is commenced on or before December 31, 2018, may be completed subsequent to that date and used for adjusting the Medicaid rates that are based on such costs.

• For state fiscal years beginning April 1, 2013, continues additional payments to non-state government operated public residential health care facilities, including public residential health care facilities located in Nassau, Westchester, and Erie counties, but excluding public residential health care facilities operated by a town or city within a county, in aggregate amounts of up to $300 million. The amount allocated to each eligible public RHCF will be in accordance with the previously approved methodology, provided, however that, in consultation with impacted providers, of the funds allocated for distribution in state fiscal year beginning April 1, 2013, up to $32 million may be allocated proportionally to those public residential health care facilities which were subject to retroactive reductions in payments made for state fiscal year periods beginning April 1, 2006. Payments to eligible RHCF's may be added to rates of payment or made as aggregate payments.

Non-institutional Services

• For state fiscal year beginning April 1, 2013 through March 31, 2014, continues hospital outpatient payment adjustments that increase the operating cost components of rates of payment for hospital outpatient and emergency departments for public general hospitals other than those operated by the State of new York or the State University of New York, which are located in a city with a population of over one million. The eligibility criteria remain unchanged. The amount to be paid will be up to $287 million. Payments to eligible public general hospitals may be added to rates of payment or made as aggregate payments.

• Continues, effective April 1, 2013 through March 31, 2015, the provision that rates of payment for adult day health services shall not reflect trend factor projections or adjustments for the period April 1, 1996 through March 31, 1997.

• Extends current provisions to services April 1, 2013 through March 31, 2015, the reimbursable operating cost component for general hospital outpatient rates and adult day health care services provided by RHCFs rates will be established with the final 2006 trend factor equal to the final consumer price index (CPI) for all urban consumers less 0.25%.

• Extends current provisions for certified home health agency administrative and general cost reimbursement limits for the periods April 1, 2013 through March 31, 2015.

• Continues, effective April 1, 2013 through March 31, 2015, home health care Medicare maximization initiatives.

The annual decrease in gross Medicaid expenditures attributable to these initiatives for state fiscal year 2013/14 is $17.8 million.

• The current authority to adjust Medicaid rates of payment for services provided by certified home health agencies (CHHAs) for such services provided to children under 18 years of age and for services provided to a special needs population of medically complex and fragile children, adolescents and young disabled adults by a CHHA, AIDS home care programs, and hospice programs for purposes of supporting recruitment and retention of non-supervisory health care workers or any worker with direct patient care responsibility has been extended for the period April 1, 2013 through March 31, 2014. Payments shall not exceed in the aggregate, $100 million for such period, and shall be calculated in accordance with the previously approved methodology.

Second Quarter Amendment
Non-Institutional Services
Responses to Standard Funding Questions

NON-INSTITUTIONAL SERVICES
State Plan Amendment #13-34

CMS Standard Funding Questions

The following questions are being asked and should be answered in relation to all payments made to all providers reimbursed pursuant to a methodology described in Attachment 4.19-B of this SPA. For SPAs that provide for changes to payments for clinic or outpatient hospital services or for enhanced or supplemental payments to physician or other practitioners, the questions must be answered for all payments made under the state plan for such service.

1. **Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by States for services under the approved State plan. Do providers receive and retain the total Medicaid expenditures claimed by the State (includes normal per diem, supplemental, enhanced payments, other) or is any portion of the payments returned to the State, local governmental entity, or any other intermediary organization? If providers are required to return any portion of payments, please provide a full description of the repayment process. Include in your response a full description of the methodology for the return of any of the payments, a complete listing of providers that return a portion of their payments, the amount or percentage of payments that are returned and the disposition and use of the funds once they are returned to the State (i.e., general fund, medical services account, etc.).**

   Response: Providers do retain the payments made pursuant to this amendment. However, this requirement in no way prohibits the public provider, including county providers, from reimbursing the sponsoring local government for appropriate expenses incurred by the local government on behalf of the public provider. The State does not regulate the financial relationships that exist between public health care providers and their sponsoring governments, which are extremely varied and complex. Local governments may provide direct and/or indirect monetary subsidies to their public providers to cover on-going unreimbursed operational expenses and assure achievement of their mission as primary safety net providers. Examples of appropriate expenses may include payments to the local government which include reimbursement for debt service paid on a provider's behalf, reimbursement for Medicare Part B premiums paid for a provider's retirees, reimbursement for contractually required health benefit fund payments made on a provider's behalf, and payment for overhead expenses as allocated per federal Office of Management and Budget Circular A-87 regarding Cost Principles for State, Local, and Indian Tribal Governments. The existence of such transfers should in no way negate the legitimacy of these facilities' Medicaid payments or result in reduced Medicaid federal financial participation for the State. This position was further supported by CMS in review and approval of SPA 07-07C when an on-site audit of these transactions for New York City's Health and Hospitals Corporation was completed with satisfactory results.

2. **Section 1902(a)(2) provides that the lack of adequate funds from local sources will not result in lowering the amount, duration, scope, or quality of care and services available under the plan. Please describe how the state share of each type of Medicaid payment (normal per diem, supplemental, enhanced, other) is funded. Please describe whether the state share is from appropriations from the legislature to the Medicaid agency, through intergovernmental transfer agreements (IGTs), certified public expenditures (CPEs), provider taxes, or any other mechanism used by the state to provide state share. Note that, if the appropriation is not to the Medicaid agency, the source of the state share would necessarily be derived through either through an IGT or CPE. In this case, please identify the agency to which the funds are appropriated. Please provide an estimate of total expenditure and State share amounts for each type of Medicaid payment. If any of the non-federal share is being provided using IGTs or CPEs, please fully describe the matching arrangement including when the state agency receives the transferred amounts from the local governmental entity transferring the funds. If CPEs are used, please describe the methodology used by the state to verify that the total expenditures being certified are eligible for Federal matching funds in accordance with 42 CFR 433.51(b). For any payment funded by CPEs or IGTs, please provide the following:**
   - **(i) a complete list of the names of entities transferring or certifying funds;**
   - **(ii) the operational nature of the entity (state, county, city, other);**
   - **(iii) the total amounts transferred or certified by each entity;**
   - **(iv) clarify whether the certifying or transferring entity has general taxing authority: and,**
   - **(v) whether the certifying or transferring entity received appropriations (identify level of appropriations).**

   Response: Payments made to service providers under the provisions of this SPA are funded through a general appropriation received by the State agency that oversees medical assistance (Medicaid), which is the Department of Health. The source of the appropriation is the Local Assistance Account under the General Fund/Aid to Localities.

3. **Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan. If supplemental or enhanced payments are made, please provide the total amount for each type of supplemental or enhanced payment made to each provider type.**

   Response: The payments authorized for this provision are not supplemental or enhanced payments.

4. **For clinic or outpatient hospital services please provide a detailed description of the methodology used by the state to estimate the upper payment limit (UPL) for each class of providers (State owned or operated,**

non-state government owned or operated, and privately owned or operated). Please provide a current (i.e., applicable to the current rate year) UPL demonstration.

Response: Certified home health agencies are not held to UPL requirements.

5. **Does any governmental provider receive payments that in the aggregate (normal per diem, supplemental, enhanced, other) exceed their reasonable costs of providing services? If payments exceed the cost of services, do you recoup the excess and return the Federal share of the excess to CMS on the quarterly expenditure report?**

   Response: The rate methodology included in the approved State Plan for home care services is a cost-based methodology subject to ceilings. There is no current requirement under current federal law or regulation that limits individual providers' payments to their actual costs.

ACA Assurances:

1. **Maintenance of Effort (MOE). Under section 1902(gg) of the Social Security Act (the Act), as amended by the Affordable Care Act, as a condition of receiving any Federal payments under the Medicaid program during the MOE period indicated below, the State shall not have in effect any eligibility standards, methodologies, or procedures in its Medicaid program which are more restrictive than such eligibility provisions as in effect in its Medicaid program on March 10, 2010.**

   MOE Period.
   - **Begins on: March 10, 2010, and**
   - **Ends on: The date the Secretary of the Federal Department of Health and Human Services determines an Exchange established by a State under the provisions of section 1311 of the Affordable Care Act is fully operational.**

   Response: This SPA complies with the conditions of the MOE provision of section 1902(gg) of the Act for continued funding under the Medicaid program.

2. **Section 1905(y) and (z) of the Act provides for increased FMAPs for expenditures made on or after January 1, 2014 for individuals determined eligible under section 1902(a)(10)(A)(i)(VIII) of the Act. Under section 1905(cc) of the Act, the increased FMAP under sections 1905(y) and (z) would not be available for States that require local political subdivisions to contribute amounts toward the non-Federal share of the State's expenditures at a greater percentage than would have been required on December 31, 2009.**

   Prior to January 1, 2014 States may potentially require contributions by local political subdivisions toward the non-Federal share of the States' expenditures at percentages greater than were required on December 31,

2009. However, because of the provisions of section 1905(cc) of the Act, it is important to determine and document/flag any SPAs/State plans which have such greater percentages prior to the January 1, 2014 date in order to anticipate potential violations and/or appropriate corrective actions by the States and the Federal government.

Response: This SPA would [ ] / would not [✓] violate these provisions, if they remained in effect on or after January 1, 2014.

3. **Please indicate whether the State is currently in conformance with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.**

   Response: This SPA does comply with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.

Tribal Assurance:

Section 1902(a)(73) of the Social Security Act the Act requires a State in which one or more Indian Health Programs or Urban Indian Organizations furnish health care services to establish a process for the State Medicaid agency to seek advice on a regular ongoing basis from designees of Indian health programs whether operated by the Indian Health Service HIS Tribes or Tribal organizations under the Indian Self Determination and Education Assistance Act ISDEAA or Urban Indian Organizations under the Indian Health Care Improvement Act.

IHCIA Section 2107(e)(I) of the Act was also amended to apply these requirements to the Children's Health Insurance Program CHIP. Consultation is required concerning Medicaid and CHIP matters having a direct impact on Indian health programs and Urban Indian organizations.

a) **Please describe the process the State uses to seek advice on a regular ongoing basis from federally recognized tribes Indian Health Programs and Urban Indian Organizations on matters related to Medicaid and CHIP programs and for consultation on State Plan Amendments waiver proposals waiver extensions waiver amendments waiver renewals and proposals for demonstration projects prior to submission to CMS.**
b) **Please include information about the frequency inclusiveness and process for seeking such advice.**
c) **Please describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment when it occurred and who was involved.**

Response: Tribal consultation was performed in accordance with the State's tribal consultation policy as approved in SPA 11-06, and documentation of such will be forwarded to CMS. To date, no feedback has been received from any tribal representative in response to the proposed change in this SPA.
