

New York State Cancer Registry, NYSDOH
 Age-Adjusted Regional/Distant Stage Cancer Incidence Rates
 New York State by Race, 1976-2016

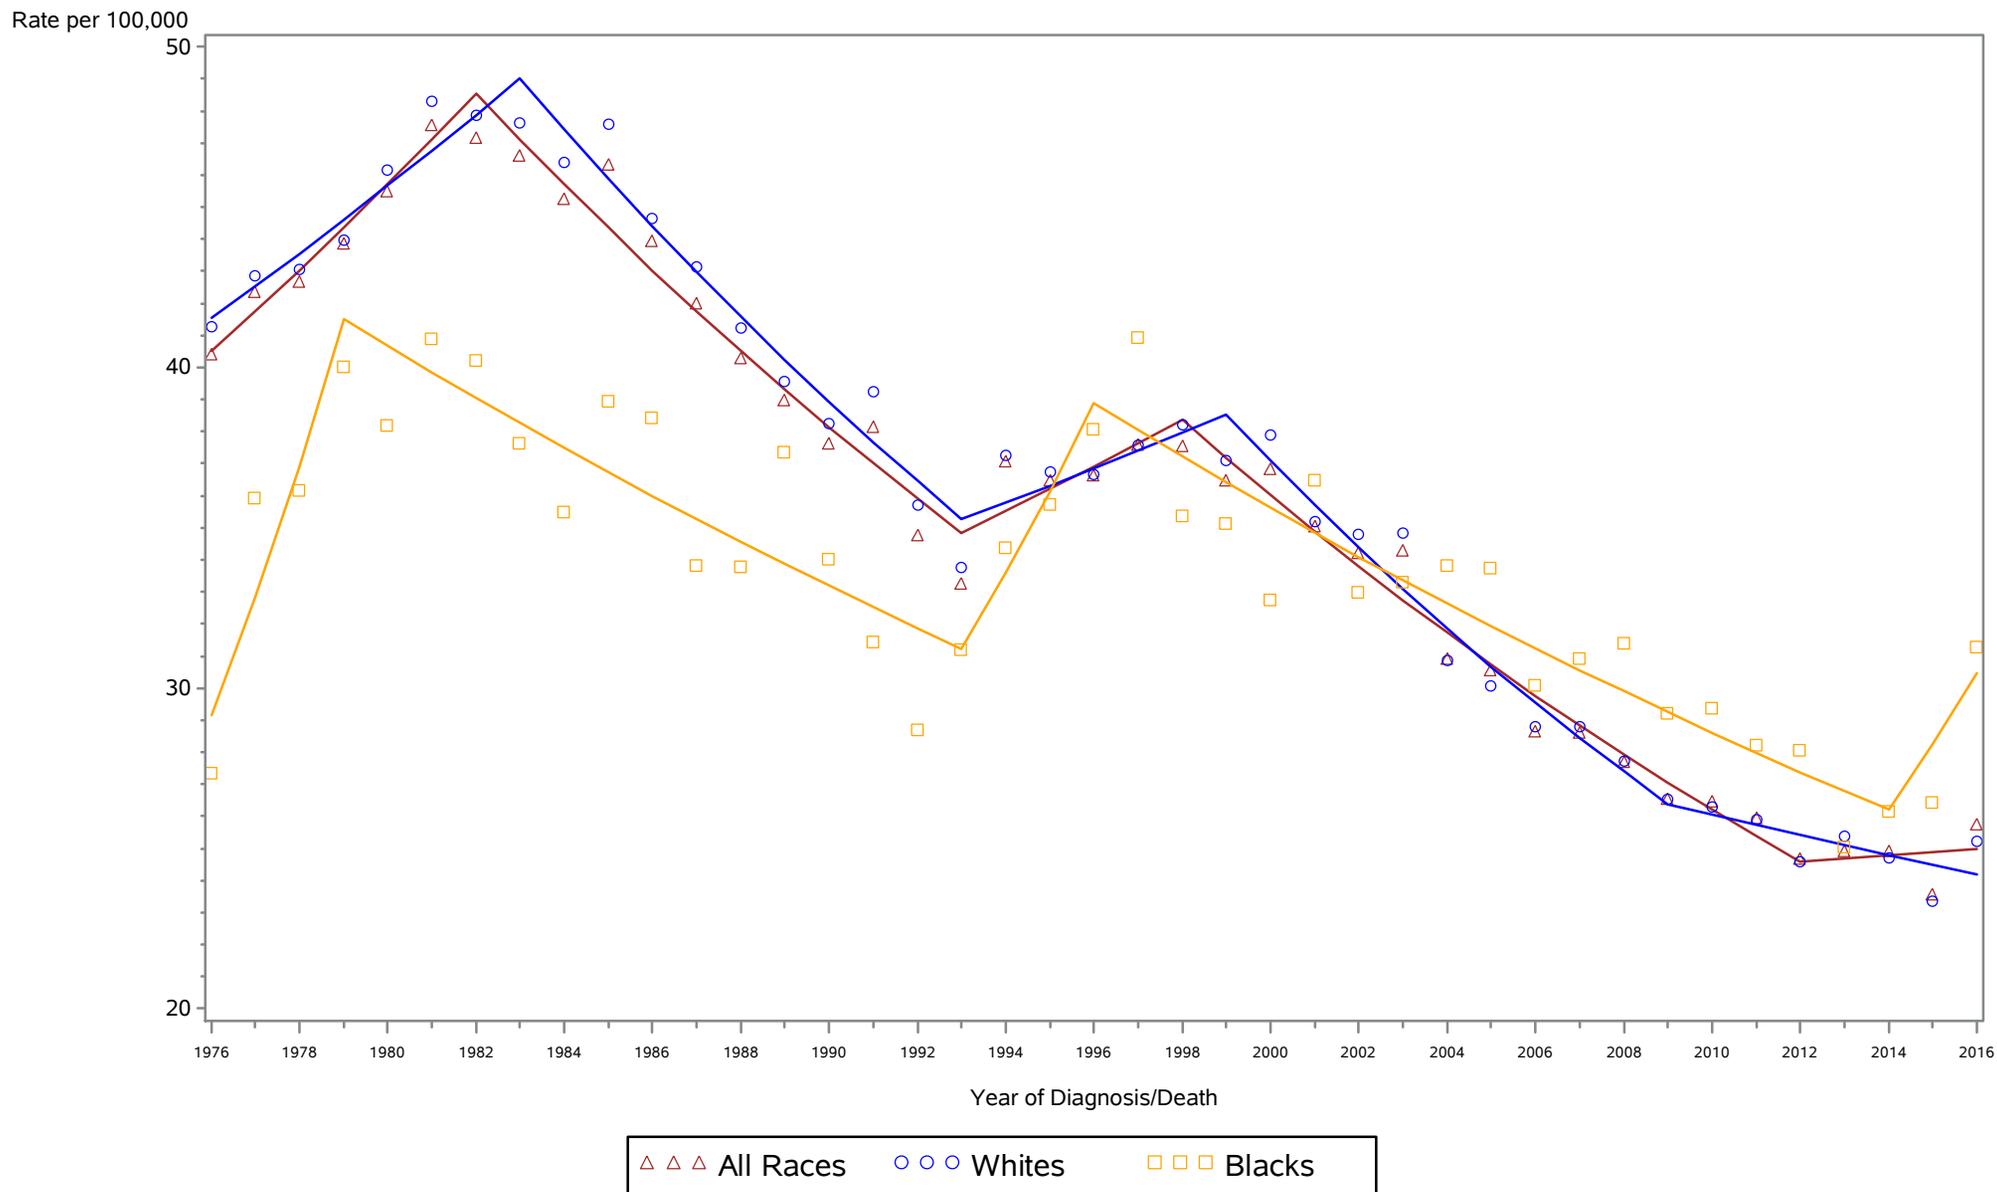

Colorectal, Males and Females

Rates are age-adjusted to the 2000 US population standard.
 Regression lines are calculated using the Joinpoint Regression Program Version 4.3.1.0, April 2016, National Cancer Institute (<http://srab.cancer.gov/joinpoint/>).
 The data shown here are not identical to the data in the corresponding 2012-2016 incidence table. See the rationale in 'Considerations When Comparing Cancer Statistics Over Time.'
