Age-Adjusted Cancer Incidence and Mortality Rates
New York State Excl New York City, 1976-2019

Urinary bladder (incl. in situ)

Rate per 100,000

Year of Diagnosis/Death

Incidence among Males and Females
Incidence among Males
Incidence among Females
Mortality among Males and Females
Mortality among Males
Mortality among Females

Rates are age-adjusted to the 2000 US population standard.
Regression lines are calculated using the Joinpoint Regression Program Version 4.6.0.0, April 2018, National Cancer Institute (http://srab.cancer.gov/joinpoint/).
The data shown here are not identical to the data in the corresponding 2015-2019 incidence table. See the rationale in 'Considerations When Comparing Cancer Statistics Over Time.'
New York State Cancer Registry, NYSDOH
Age-Adjusted Cancer Incidence and Mortality Rates
New York State, 1976-2019

Kidney and renal pelvis

Rate per 100,000

Year of Diagnosis/Death

Incidence among Males and Females
Mortality among Males and Females
Incidence among Males
Mortality among Males
Incidence among Females
Mortality among Females

Rates are age-adjusted to the 2000 US population standard.
Regression lines are calculated using the Joinpoint Regression Program Version 4.6.0.0, April 2018, National Cancer Institute (http://srab.cancer.gov/joinpoint/).
The data shown here are not identical to the data in the corresponding 2015-2019 incidence table. See the rationale in ‘Considerations When Comparing Cancer Statistics Over Time.’
