

Motor Vehicle Traffic Injuries Broome County Residents 2012-2014

The Concern

Motor Vehicle Traffic Injuries are the 4th leading cause of injury related death in Broome County. Traffic crash-related injuries are the 4th leading cause of injury related hospitalization and a leading cause for injury related emergency department (ED) visits in Broome County.

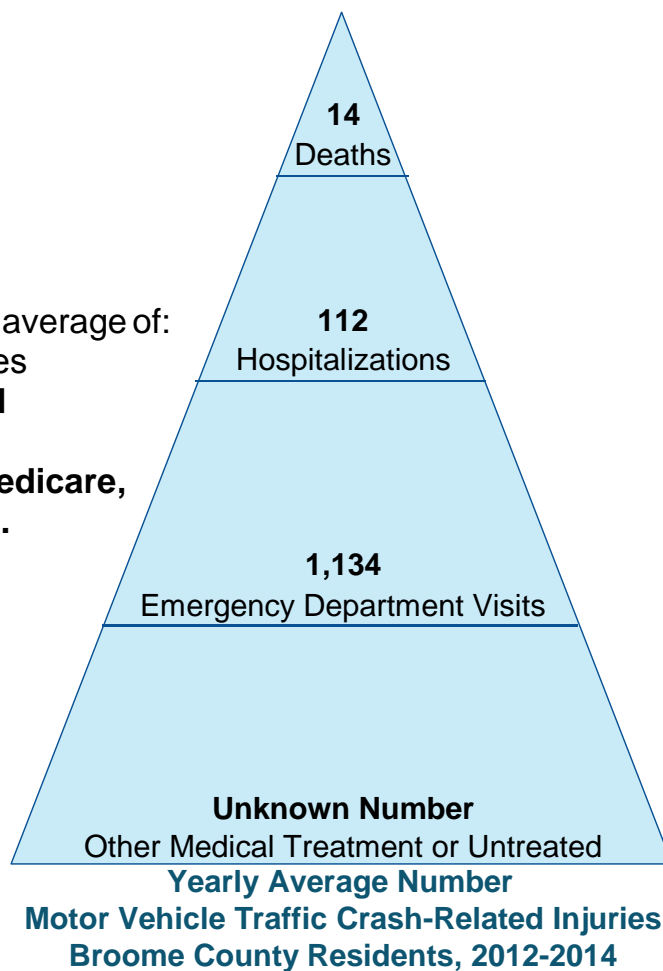

Traffic crash-related injuries are not accidents! They are not random, uncontrollable acts of fate, but occur in predictable patterns, with recognizable risk factors and among identifiable populations. A traffic crash-related injury is a predictable and preventable event!

Magnitude of the Crash Problem

- Every two **months**, because of a traffic crash, an average of:
 - 2 Broome County resident(s) died
 - 19 Broome County residents were hospitalized
 - 189 Broome County residents were treated in an ED

- Annually, traffic crashes resulted in an average of:
 - \$5.2 Million in hospitalization charges
 - **Approximately \$444.6 Thousand was charged to publicly funded programs, such as Medicaid, Medicare, VA health care, and corrections.**
 - \$3.4 Million in ED charges

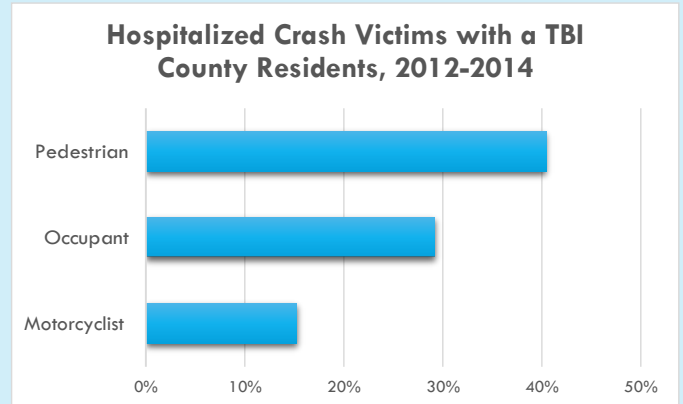

- 14% of hospitalized crash victims were released to another hospital, rehabilitation center or long-term care facility, **incurring additional costs.**

Traumatic Brain Injuries (TBIs) can result from traffic crashes and may result in the loss of independent function, requiring long-term care, and increased in life-long expenses.

- Among Broome County Residents that were hospitalized following a traffic crash **28% were diagnosed with a TBI.**
- Bicyclists and motorcyclists who wear helmets reduce their risk of a TBI!
- The risk of TBI can be reduced by wearing your seat belt!

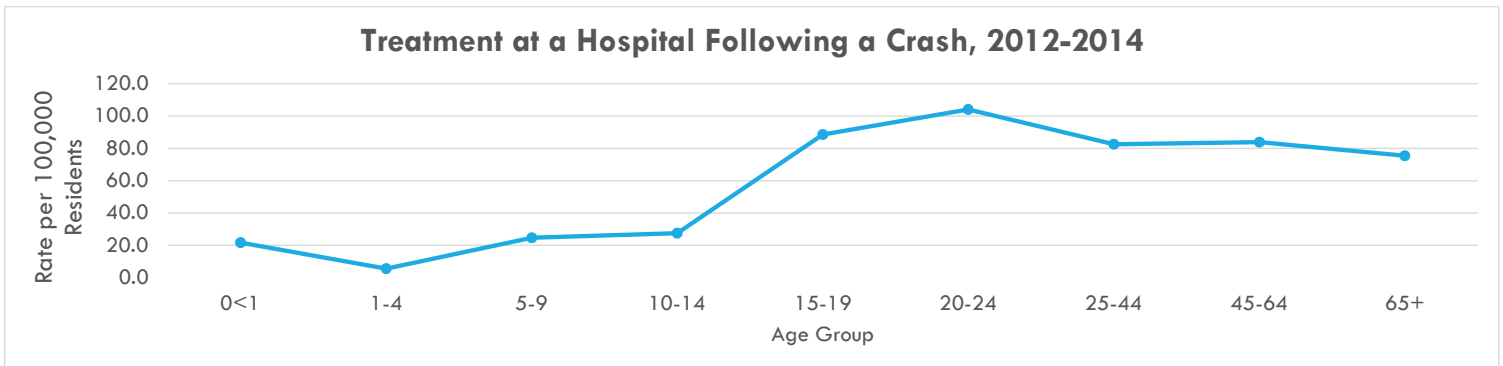

Who is at Risk for Crash-Related Injuries?

- Although most crash victims in Broome were vehicle occupants, **a higher percentage of pedestrians and motorcyclists were injured severely enough to require hospitalization.**

In Broome County:

- Although females have a higher rate of outpatient ED visits, males are more likely to have died or been hospitalized from a traffic crash.
- Traffic-related crash injuries occur in all age groups.

Broome County residents aged 20-24 had the highest rate of injuries treated in a hospital following a crash.
