

Motor Vehicle Traffic Injuries Putnam County Roadways 2007

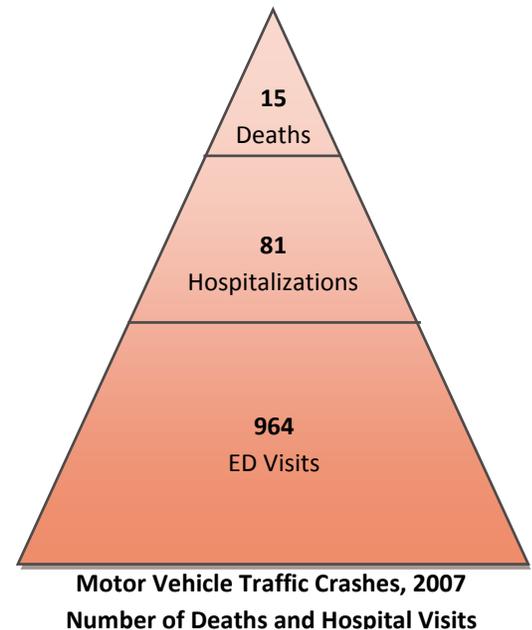

The Concern

Motor Vehicle Traffic Injuries are a serious public health problem in Putnam County, NY. They are the leading cause of injury related deaths. Crashes are not only a significant cause of death, pain and suffering, but also an economic burden to Putnam County. In 2007, the crashes on Putnam County's roadways resulted in over \$7 million in hospitalization and emergency department (ED) charges.

These crashes are not accidents! They are not random, uncontrollable acts of fate, but occur in predictable patterns, with recognizable risk factors and among identifiable populations. A crash-related injury is a predictable and preventable event!

Magnitude of the Crash Problem

- Every **month**, because of a traffic-related crash on a Putnam County road, an average of:
 - 1 person died
 - 7 people were hospitalized
 - 80 people were treated in an ED
- In 2007, crashes on Putnam County roadways resulted in:
 - \$5.5 million in hospitalization charges
 - \$1.6 million in ED charges

Traumatic Brain Injuries (TBIs) can result from traffic related crashes and may result in the loss of full independent function, requiring long-term care and increased life-long expenses.

Crashes on Putnam County Roadways in 2007:

- ⇒ Unrestrained vehicle occupants were **five times more likely to sustain a TBI than vehicle occupants that buckled-up!**
- ⇒ Alcohol and passing/lane violation related crashes were associated with the highest risk of a TBI.

Risky Driving Behaviors Help to Identify the Crash Patterns and Associated Risks

Vehicle occupants that did NOT USE SEAT BELTS or CHILD SAFETY SEATS were:

- ⇒ Six times more likely to require hospitalization.
- ⇒ Five times more likely to be diagnosed with a TBI.
- ⇒ Twice as likely to be diagnosed with a serious injury.

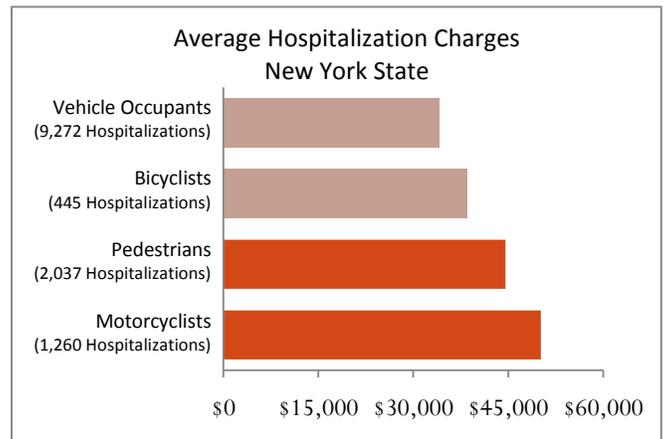

People involved in alcohol and Passing/Lane Violation related crashes:

- ⇒ Were more likely to have medically diagnosed serious injuries
 - Resulting in some of the highest hospitalization charges among those injured in a motor vehicle crash

In 2007, crashes on Putnam County roadways resulted in \$7 million in hospital and ED charges for treatment of injuries.

- ⇒ Average hospital charge = \$67,929
- ⇒ Average ED charge = \$1,678
- ⇒ Highest average charges in NYS were for:
 - Motorcyclists
 - Pedestrians
- ⇒ Highest total Hospital and ED charges in Putnam County were for:
 - Passing/Lane Violation
 - Speeding
 - Alcohol-Related

Reducing risky behaviors on the road can save lives and prevent injuries – making Putnam County a safer place to drive!
