

Motor Vehicle Traffic Injuries Schuyler County Residents 2005-2007

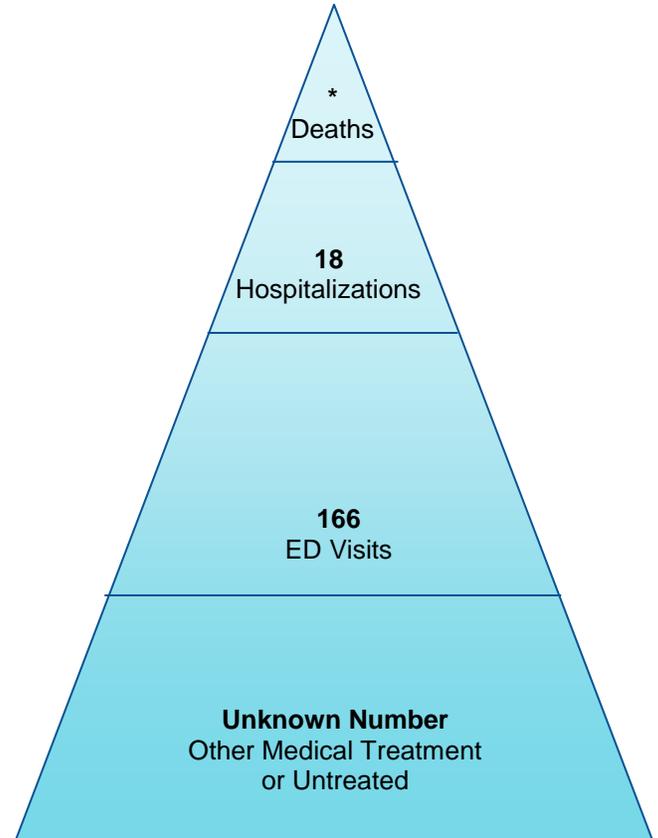

The Concern

Motor Vehicle Traffic Injuries are the second leading cause of injury related death in Schuyler County. Crash related injuries are also the 2nd leading cause of injury related hospitalization and a leading cause of injury related emergency department (ED) visits in Schuyler County.

Crash-related injuries are not accidents! They are not random, uncontrollable acts of fate, but occur in predictable patterns, with recognizable risk factors and among identifiable populations. A crash-related injury is a predictable and preventable event!

Magnitude of the Crash Problem

- Every **two months**, because of a traffic-related crash, an average of:
 - 3 Schuyler County residents were hospitalized
 - 28 Schuyler County residents were treated in an ED
- Annually, traffic crashes resulted in an average of:
 - \$435.8 thousand in hospitalization charges
 - \$261.8 thousand in ED charges
- 16% of hospitalized crash victims are released to another hospital, rehabilitation center or long term care, **incurring additional costs**

Schuyler County Residents, 2005-2007

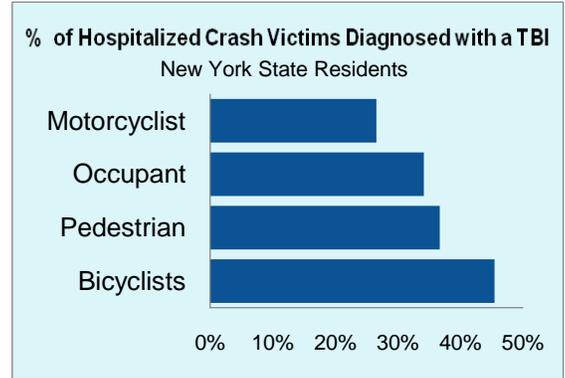

Traumatic Brain Injuries (TBIs) can result from traffic related crashes and may result in the loss of independent function, requiring long-term care, and increased life-long expenses.

⇒ Among Schuyler County Residents that were hospitalized following a traffic crash **32.1% were diagnosed with a TBI.**

⇒ The risk of TBI can be reduced by wearing your seat belt!

⇒ Bicyclists and Motorcyclists who wear helmets reduce their risk of a TBI!

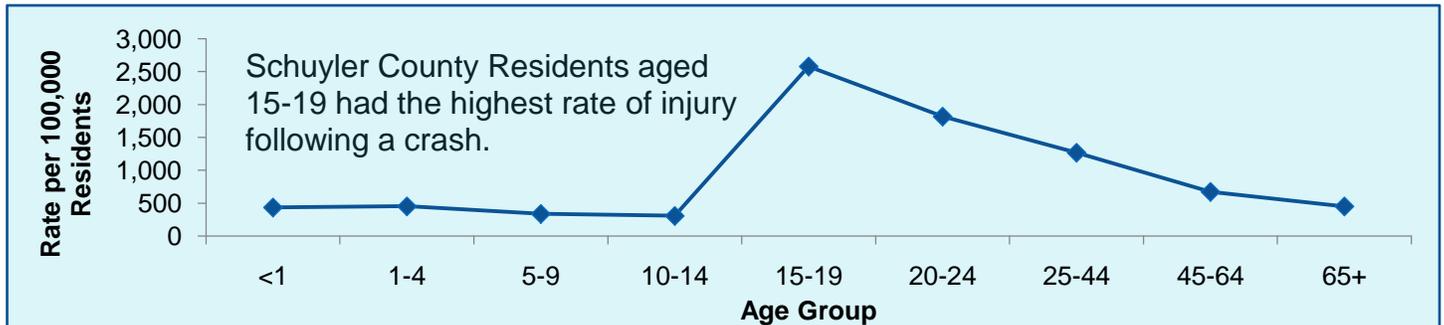

Who is at Risk for Crash-Related Injuries?

- Although most crash victims in New York State were vehicle occupants, **a higher percentage of bicyclists, pedestrians, and motorcyclists** were injured severely enough to require hospitalization.

In Schuyler County:

- Males are more likely to have received outpatient ED treatment or been hospitalized following a traffic crash.
- Traffic-related crash injuries occur in all age groups.

Treatment at a Hospital Following a Crash
