NCPDP – NATIONAL COUNCIL FOR PRESCRIPTION DRUG PROGRAMS

1 Introduction

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 carries provisions for administrative simplification. This requires the Secretary of the Department of Health and Human Services (HHS) to adopt standards to support the electronic exchange of administrative and financial health care transactions primarily between health care providers and issuers. HIPAA directs the Secretary to adopt standards for transactions to enable health information to be exchanged electronically and to adopt specifications for implementing each standard.

The National Council for Prescription Drug Programs (NCPDP) is a non-profit organization formed in 1976. It is dedicated to the development and dissemination of voluntary consensus standards that are necessary to transfer information that is used to administer the prescription drug benefit program.

Refer to the NCPDP Post Adjudication Version 4.2 documents (NCPDP Post Adjudication Standard Implementation Guide (IG), Data Dictionary, and External Code List) for more detailed information on field values and segments.

The following information is intended to serve only as a Companion Guide to the aforementioned NCPDP Post Adjudication Standard Version 4.2 documents. The use of this Companion Guide is solely for the purpose of clarification. The information describes specific requirements to be used for processing data. This Companion Guide supplements, but does not contradict, any requirements in the NCPDP Post Adjudication Standard Version 4.2 Implementation Guide and related documents.

To request a copy of the NCPDP Standard Formats or for more information contact the National Council for Prescription Drug Programs, Inc. at www.ncpdp.org. The contact information is as follows:

2 Companion Guide Disclaimer:

The New York State Department of Health (NYSDOH) has provided this Encounter Intake System (EIS) Companion Guide for the NCPDP Post Adjudication transaction to assist Issuers in preparing NCPDP compliant transactions. This document was prepared using the NCPDP Post Adjudication Standard Implementation Guide version 4.2, Data Dictionary, and External Code List.

NYSDOH does not offer individual training to assist Plans in the use of the NCPDP transactions. The information provided herein is believed to be true and correct based on the aforementioned NCPDP Post Adjudication Standard Version 4.2 Implementation Guide and the related documents. The transaction is continuing to evolve through the continuous maintenance process. Therefore, NYS Department of Health makes no guarantee, expressed or implied, as to the accuracy of the information provided herein. Furthermore, this is a living document and the information provided herein is subject to change as NYSDOH policy changes or as the standards are updated or revised.
3 NYS All Payer Database (APD) Note

The National Council for Prescription Drug Programs (NCPDP) Post Adjudication Standard Implementation Guide Version 4.2, Data Dictionary, and External Code List, has been adopted to fulfill an industry need to supply detailed drug or history claim information after the claim has been adjudicated.

This Companion Guide, which is provided by the New York State Department of Health (NYSDOH), outlines the required format for the New York State Encounter Intake System Post Adjudication transactions. It is important that Issuers study the Companion Guide and become familiar with the data that will be expected by NYS EIS in transmission of a Post Adjudication Pharmacy Transaction.

This Companion Guide does not modify the standards; rather, it puts forth the subset of information from the NCPDP Post Adjudication Standard Version 4.2 Implementation Guide, Data Dictionary, External Code List, and Version 4.2 Editorial Updates that will be required for processing transactions. It is important that plans use this Companion Guide as a supplement to the NCPDP Standard 4.2 documents. Within the IG, there are data elements, which have available for use many different qualifiers. Each qualifier identifies a different piece of information. This document omits code qualifiers that are not necessary for NYS EIS processing. Although not all available codes are listed in this document, NYSDOH will accept any codes named or listed in the NCPDP Data Dictionary and External Code List. When necessary, NYS EIS notes are included under “Plan Situation” to describe the NYSDOH specific requirements.

Although not all IG items are listed in the Companion Guide, NYS EIS will accept and capture the data that complies with the Post Adjudication Standards IG. Issuers are required to use the NCPDP Post Adjudication Standard Implementation Guide Version 4.2, the Data Dictionary, and the External Code List (ECL), to understand the positioning, format and usage of the transaction and data elements.

Please refer to the Trading Partner Information Companion Guide for Information about transaction header structures, transaction size limits, electronic communications methods, and enrollment. This document is available from the EIS Encounters support services for Issuers through the following e-mail: NYS-DOH-APD-Issuer-Support@csra.com.

Health Care Issuers can acquire the aforementioned NCPDP documents from www.ncpdp.org.
4 Purpose

This guide is intended to provide guidelines to software vendors and health care issuers as they implement the NCPDP Post Adjudication 4.2 Standard.

4.1 System Availability

The New York State EIS NCPDP Post Adjudication transaction submission system is available to issuers 24 hours a day, seven days a week.
