APD Stakeholder Meeting - Facilitated Discussions
2:30 PM - 3:00 PM

Purpose. The facilitated discussions are designed to allow for participant feedback on the types of topics, visualizations, and stories different stakeholder groups would like to see on the NYS Health Connector. We would also like to solicit feedback on how we can make the site more useful to you?

What will we do with the information. We will use this material as input into our NYS Health Connector release schedule, which will include times we anticipate releasing new topics and dashboards.

Instructions. There are three stakeholder groups and corresponding “stations” in the meeting room. There will be three designated facilitators available to assist participants, one per station. There will be an APD team rapporteur that will synthesize information for a report out, working across stations.

1. Consumer
2. Policy Makers and Community Groups
3. Researcher

Step 1: In 5 minutes, write down topics that would be useful to you or your work. Think about how data is best presented - as big numbers, changes over time, highlight lists, or maps. Also think about the timeframe when you might want to see a dashboard on this topic (next six months, 1 year). Use 1 piece of color paper (on your table) for each question or comment. (2:30 - 2:35)

Step 2: Get up and place each of your topics on its related stakeholder group station on the wall. (2:35 - 2:40)

Step 3: Choose one of the stakeholder group that most interests you and collectively discuss the topics, ideas, and timeframes with other participants, review the topics and ideas, work with the facilitator to group them into similar categories, and add any additional ideas. (2:40 - 2:55)

Step 4: An APD team rapporteur reports out on the ideas, topics, opportunities from the stakeholder group discussions. (2:55 - 3:00)

* If you are participating by Webex, please enter questions, comments, or ideas into the Webex chat session and it will be recorded. These questions, comments, and ideas will be incorporated into the resulting meeting materials and will not be reported out by the rapporteur.
